UAE Longevity Real Estate Market Intelligence System and Dashboard

White Label Solution for Longevity, HealthTech and Optimal Living Real Estate and Tourism

UAE Longevity Real Estate (LRE) Big Data Analytics System and Dashboard Components

Advanced Industry Analytics

- Longevity Resort and Hotel Market Monitoring
- Benchmarking, Ranking and Scoring Longevity Facilities
- Competitive Environment and Best Practices Monitoring
- Market Data-Driven Recommendations

Core Infrastructure

- 70 LRE Companies, 30 Investors, 22 Leaders
- Clinics, Real Estate Developers, Investors
- Geographic and Regulatory Environment Benchmarking
- Investment Universe Analysis

Longevity Real Estate

- Wellness, Longevity and Medical Resorts / Hotels
- Healthy Lifestyle Homes
- Multi-Clinic Business Mega Centers (Hubs for Clinics)
- Performance Enhancement Resorts for HNWIs

UAE Longevity Real Estate Big Data Analytical System

Project Overview

AI-Driven Big Data Analytics System for Deep Market Intelligence on UAE Longevity Real Estate (LRE) Companies and Investors

End-to-End Infrastructure for Market Monitoring, Competitive Intelligence, Company Benchmarking and Investment Relations

AI Co-Pilot to Automatically Translate Longevity Real Estate Dashboard Insights into Practical Strategic Recommendations

Options for Standard Dashboard Subscription, Custom White Label Solution, and SaaS-Based Access to Select Components

Sophisticated Engagement Relations Management System (ERM) to Enhance Business Marketing and Client Relations

LRE Corporate Blueprints: Ideal Pipeline of Components for Different Use-Cases (Longevity Resort, Hotel, Home, etc).

Longevity Real Estate in the UAE Big Data Analytics Dashboard

UAE Longevity Real Estate Dashboard and Market Intelligence System

The **UAE Longevity Real Estate (LRE) Dashboard** offers detailed insights into the UAE Longevity Real Estate industry ecosystem, encompassing a comprehensive set of tools for analytics, comparative assessment, market intelligence and operational environment monitoring across 70 companies and 30 investors active in this space in the UAE.

Built on the basis of our Global LRE Dashboard, it includes benchmarking, competitive analyses, customizable reporting, and in-depth profiles of Longevity Real Estate companies, investors and projects, comprehensive market and business intelligence, as well as benchmarks of the top projects and companies in the region, and corporate blueprints that enable clients to construct best-in-class Longevity Real Estate projects according to their desired specifications across multiple project types including Longevity homes, apartments, hotels, resorts, multi-clinic business centers and more, customized according to whether they are beginning construction from scratch or pursuing refurbishment of existing facilities.
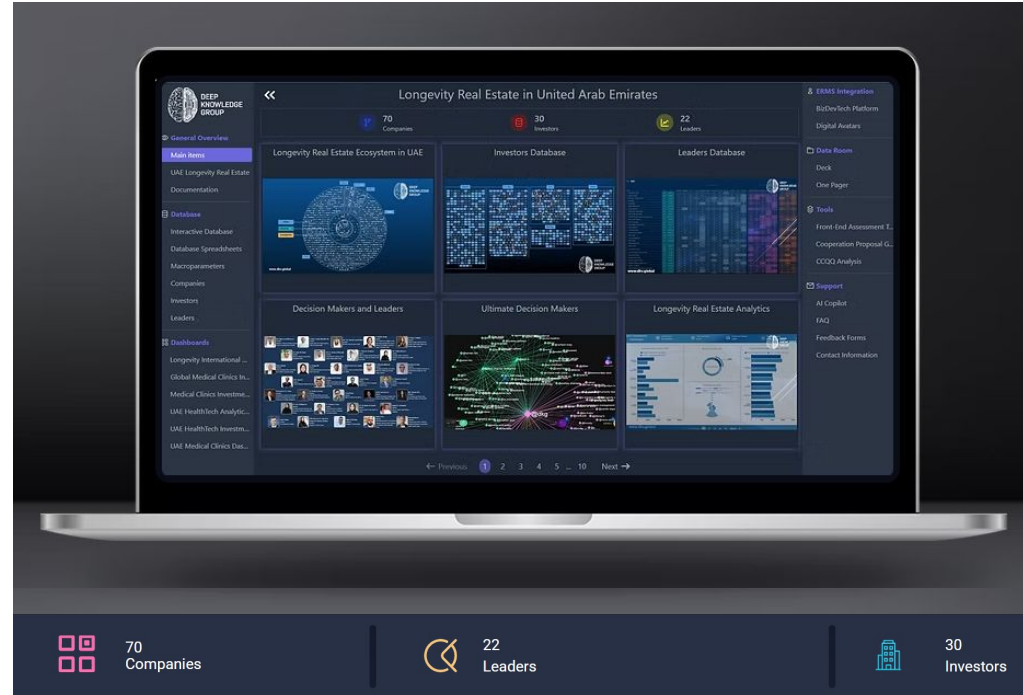

Developed by Deep Knowledge Group's Life Sciences division and health-focused analytics subsidiaries, a group well known for their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Dashboards and Market Intelligence Systems, the UAE Longevity Real Estate Big Data Analytics Dashboard provides the most comprehensive and technologically sophisticated solution available to date for optimizing corporate decision making, business development and tactical strategy execution in the UAE.

What are Dashboards?

We provide deep data science insights on the private and public markets via customized IT platforms we call Dashboards. In essence, Dashboards is a Big Data Analytical System that consists of separate Components or Dashboards:

Specialized data for critical decisions

Dashboards by Deep Knowledge Group uncover actionable insights and trends for all companies and investors of DeepTech, HealthTech and Longevity Industries. Our visually pleasing platform provides unparalleled access to the public and private markets, and we are committed to providing unbiased data - information you can use to drive success at your firm.

Discover what you can do with our Dashboards

FOR INVESTORS

Personal Blueprint
Advanced Companies Search for Investors

Explore companies with unseen precision. Many investors can confirm that looking for a suitable investment target starts with the creation of the database. The one that suits his/her needs and allows him/her to ask the right questions.

SWOTs & Matching Tool for Investors

Easily analyze companies market position and compare it across the industry. Any investment decision is conducted based on a specific analysis called due diligence. The process of due diligence encompasses the use of different approaches that allow analysis and comparison of companies. Thus, the assessment of one company ends up in a multi-layer comparison of tens or even hundreds of companies.

Limited Partners

Explore Limited Partners From Multiple Thematic Groups. Limited Partners are the driving force of any market. Many investment entities looking for those, aiming to allocate their money to their fund or firm. Yet this process takes a lot of time and effort.

Look at our Limited Partners tutorial.

Mindmaps

Easily analyze the market connections across different sectors and subsectors of the Longevity, Healthcare and Biotech industries. Understand how different actors relate to each other in an interactive way. No matter what is the reasoning behind your market analysis, Mindmaps can serve as a powerful tool to track and understand your niche better!

Look at our Mindmaps tutorial.

Statistics charts

Access a powerful and easy-to-use analytical tool that will allow you to derive your own market insights today. Forget about lifeless statistics, data cleaning, and visualization problems. Use the database of more than 70,000 companies across different Longevity, Biotech, and Pharma sectors to envision the market in the way you want and need.

Look at our Statistics charts.

R&D Collaborations and Clinical Trials for Investors

Analyze the intellectual property of the companies to drive your market understanding. While looking for an investment target, financial performance can be deceiving. In the case of pharmaceutical or biotech companies, the financial position can lead to an incorrect image of the company.

Look at our Clinical Trials tutorial.

Forecasting & Reports for Investors and Companies

Access top-level forecasting solutions and reports to drive your market understanding. It's hard to imagine a proper investment pipeline without good forecasting and market analysis. Unfortunately, both of these things are really time-consuming and might take a lot of resources.

Look at our Forecasing / Predictions tutorial.

LRE Corporate Blueprints: Comparison of Your Project vs. Ideal Project
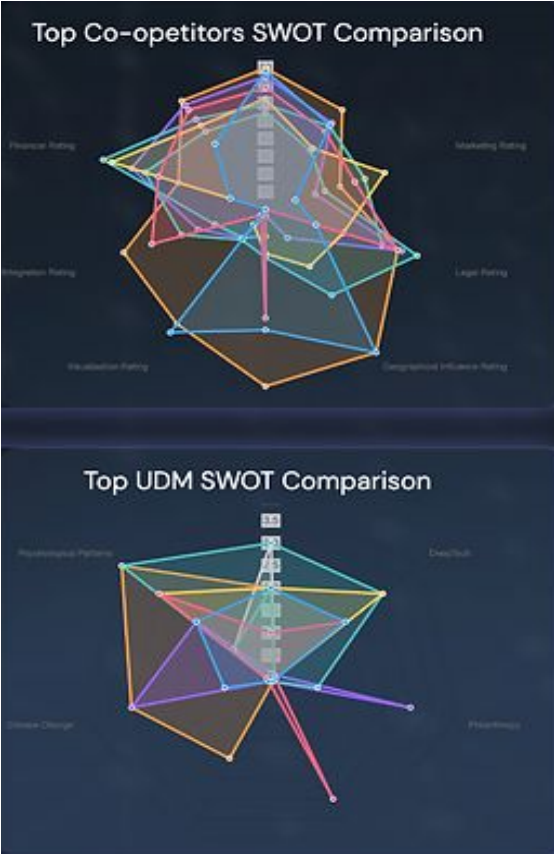

In addition to comprehensive end-to-end SWOT and comparative analysis between projects operating in the same project type and use-case domain, the Dashboard also allows clients to compare their project and company a hypothetical ideal project (blueprint) in the same focus area as yours. This enables more actionable, data-driven roadmapping for project planning and execution.

Mapping the UAE Longevity Real Estate (LRE) Synthetic Operational Environment

Arithmetical Resulting Gold Standard

Direct Competitors

Target Project Universe
Narrower Ecosystem of LRE Companies Matching Client Company Type/Scope

Global Longevity Real Estate Industry Operational Environment
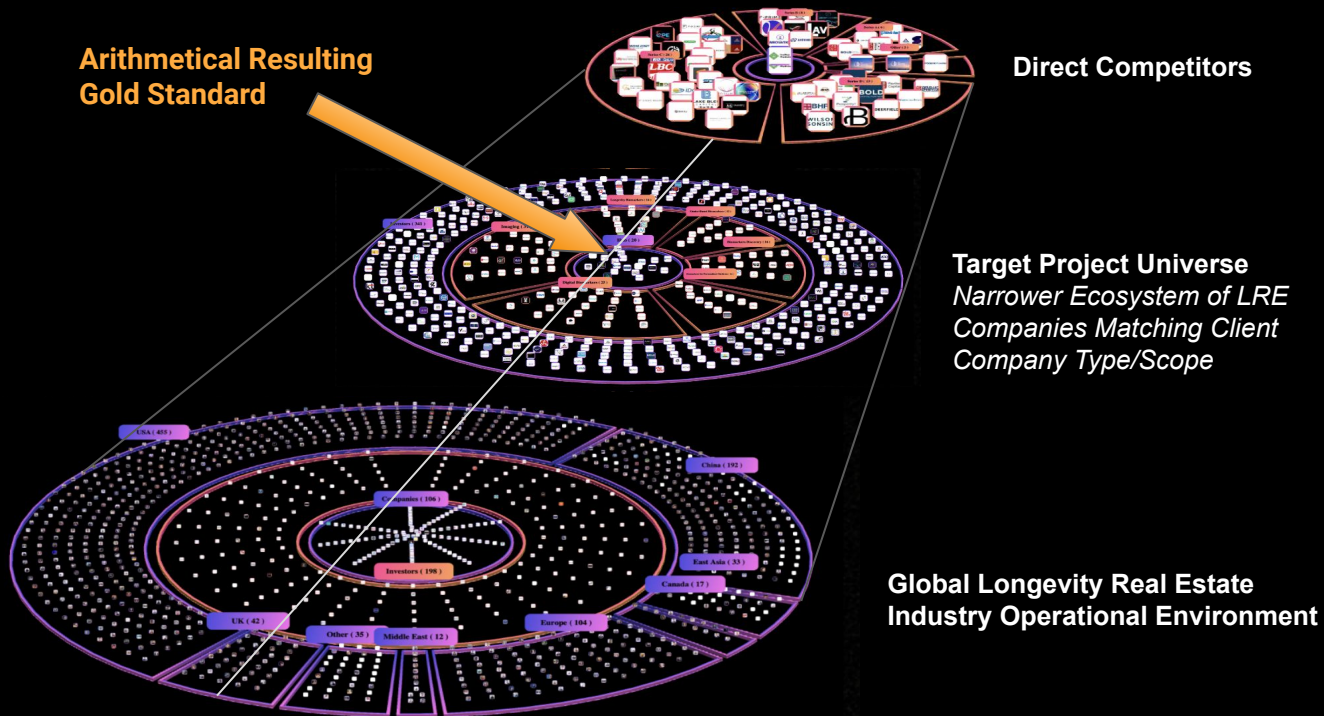

A targeted, qualified shortlist of direct Longevity Real Estate competitors is obtained by mapping the full operation environment of the UAE Longevity Real Estate Industry, and filtering the subset of companies that match the client according to LRE project type (e.g, Longevity hotel vs. resort vs. home; new construction vs. refurbishment, etc.)

Narrow targeting then enables identification of the direct competitors of the client; however, parallel analysis of the full UAE LRE Industry also enables identification of gold standards and best practices both from similar and dissimilar projects.

UAE Medical Clinics Big Data Analytics Dashboard and Market Intelligence System

The **UAE Medical Clinics Industry Dashboard** offers detailed insights into the UAE medical clinics industry ecosystem, encompassing a comprehensive set of tools for analytics, comparative assessment, market intelligence and operational environment monitoring across 720+ clinics in the UAE across P4 Medicine, Advanced Medicine, and Longevity, with comparisons of trends and benchmarks in advanced medicine across the region.

It includes benchmarking, competitive analyses, customizable reporting, and in-depth clinic profiles for comprehensive market and business intelligence. Our product and service suite also encompass structured recommendations on how to optimize and modernize existing physical clinical pipelines and protocols according to data-driven ecosystem analysis and market intelligence, enabling clinics to adopt best practices, monitor and on-board innovations, and adapt to competitors.

As a sister dashboard of the UAE Longevity Real Estate Dashboard, it provides a number of opportunities for cross-analysis and transfer of UAE medical clinics best-practices and protocols to the more specific context of Longevity Real Estate projects and assets.

UAE Medical Clinics Big Data Analytics Dashboard and Market Intelligence System

Longevity Real Estate Corporate Blueprints

Longevity Real Estate Corporate Blueprints (Ideal Pipeline for Project Execution)

Hotel Refurbished into Longevity Clinic

Description: Transform an existing hotel or resort into a longevity clinic, blending hospitality with advanced wellness and medical services.

Features
1. Remodelling: Convert hotel rooms into medical suites and wellness areas.
2. Wellness and Health Services: Health assessments, anti-aging treatments, and personalised wellness programs.
3. Specialist Staff: Medical professionals, wellness coaches, and therapists.
4. Target Clients: Health-focused travellers seeking a combination of vacation and medical care.

Key Benefits: Provides health-conscious tourists with high-quality wellness services in a comfortable, familiar hotel setting.

New Longevity Clinic in a Resort

Description: A from-scratch longevity clinic built within a resort, designed for high-end clients seeking wellness services alongside their luxury vacation.

Features:
1. Eco-Friendly Design: Incorporates sustainable building materials and wellness-oriented architecture.
2. Comprehensive Medical Services: Diagnostics, anti-aging programs, and biohacking treatments.
3. Advanced HealthTech Equipment: State-of-the-art health tech, including body scanners and labs.
4. Target Clients: Elite guests wanting comprehensive health care integrated into their vacation.

Key Benefits: A luxury resort that offers not only relaxation but personalised longevity services for long-term health improvement.

Healthy Lifestyle Homes and Apartments

Description: Residential spaces focused on supporting wellness, from clean air to fitness facilities, providing residents with an environment that promotes overall health.

Features:
1. Clean Air Systems: Air and water purification for optimal health.
2. In-Home Fitness & Wellness: Yoga rooms, meditation spaces, and personal fitness facilities.
3. Smart Health Monitoring: Sensors to track air quality, sleep patterns, and physical health metrics.
4. Target Clients: Families or individuals focused on optimising their health in daily life.

Key Benefits: Residents enjoy continuous health improvements thanks to built-in features that promote mental and physical well-being.

Longevity Real Estate Corporate Blueprints

Longevity Real Estate Corporate Blueprints (Ideal Pipeline for Project Execution)

Longevity City Zones

Description: Urban areas or neighbourhoods designed with wellness in mind, featuring green spaces, eco-friendly infrastructure, and community health resources.

Features
1. Urban Design: Parks, walkable areas, and bike paths integrated into the city layout.
2. Wellness Centers: Clinics and wellness centres offering preventive health services, diagnostics, and treatments.
3. Sustainable Living: Eco-friendly buildings with low energy consumption and renewable energy sources.
4. Target Clients: Urban professionals and families seeking a health-focused lifestyle.

Key Benefits: Residents benefit from living in a clean, health-conscious environment that encourages physical activity and community connection.

Longevity Business Mega-Centers

Description: Large-scale facilities housing multiple health and wellness clinics under one roof, providing diverse services in one centralised location.

Features:
1. Multi-Clinic Setup: Offers a range of services, from regenerative medicine to wellness and mental health.
2. Shared Resources: Centralised labs, diagnostic tools, and data-sharing between clinics.
3. AI-Driven: AI-powered systems to manage patient data, diagnostics, and personalised treatment plans.
4. Target Clients: Healthcare professionals, companies, and high-net-worth individuals.

Key Benefits: A convenient, centralised location for advanced health services, offering cutting-edge treatments with streamlined processes.

Existing Longevity Clinic Upgrade

Description: Enhancing an existing clinic with new technologies, modern infrastructure, and expanded services to offer the latest in longevity and wellness.

Features:
1. Technology Upgrades: Implementing AI diagnostics, robotic treatments, and telemedicine platforms.
2. Expanded Services: Adding new wellness programs, such as biohacking, regenerative medicine, or mental health therapies.
3. Renovations: Upgrading patient spaces to create a more comfortable, modern healing environment.
4. Target Clients: Current patients and new clients seeking cutting-edge treatments.

Key Benefits: Offers more advanced services and a more comfortable patient experience, improving overall clinic performance.

Longevity Real Estate Corporate Blueprints

Longevity Real Estate Corporate Blueprints (Ideal Pipeline for Project Execution)

Loneliness-Combating Community Spaces

Description: Real estate focused on fostering social connections and reducing loneliness, integrating community wellness activities into residential living.

Features
1. Shared Social Spaces: Lounges, community kitchens, and co-working spaces that encourage interaction.
2. Organised Events: Group fitness, meditation sessions, and social events to promote bonding and reduce isolation.
3. On-Site Mental Health Services: Access to therapists and counsellors, group therapy sessions, and mental wellness workshops.
4. Target Clients: Seniors, singles, and those seeking stronger community ties.

Key Benefits: Encourages social engagement and emotional well-being, helping residents combat loneliness and mental health challenges.

Clean Air and Environmental Wellness Living

Description: Homes equipped with advanced air filtration systems and eco-friendly designs to provide an optimal living environment focused on respiratory and environmental health.

Features:
1. Air Filtration Systems: High-tech purification systems that continuously remove pollutants and allergens.
2. Green Design: Indoor plants and natural elements incorporated to improve air quality and mental wellness.
3. Real-Time Monitoring: Sensors that monitor indoor air quality and adjust systems automatically for optimal health.
4. Target Clients: Health conscious individuals with eco-friendly living goals.

Key Benefits: Cleaner air for better respiratory health, improved mental clarity, and reduced environmental stress.

Mindfulness and Meditation Residences

Description: Homes designed with mindfulness and meditation at their core, offering spaces and services focused on mental relaxation and stress relief.

Features:
1. Meditation Rooms: Calm, quiet spaces designed for meditation and relaxation, equipped with sound therapy and natural light.
2. Mindfulness Coaches: On-site or virtual meditation guides to help residents practise mindfulness.
3. Nature-Inspired Design: Open spaces with natural elements like water features and plants, promoting calmness and mental clarity.
4. Target Clients: Individuals seeking mental peace, emotional balance, and stress management.

Key Benefits: Promotes mental clarity, reduces anxiety, and fosters emotional well-being in everyday life.

Longevity Real Estate Corporate Blueprints

Longevity Real Estate Corporate Blueprints (Ideal Pipeline for Project Execution)

Wellness-Focused Family Homes	Nature-Integrated Living Spaces	Multi-Generational Wellness Communities
Description: Family homes designed to enhance overall wellness, with features that promote physical health, mental well-being, and family bonding.	**Description:** Homes that blend indoor and outdoor living to enhance wellness through direct access to nature, promoting physical and mental health.	**Description:** Communities designed for multi-generational living, offering wellness services tailored for different age groups to encourage family bonding and well-being.

Wellness-Focused Family Homes

Features
1. Family Wellness Programs: On-site or virtual coaching for parents and children focused on health, nutrition, and mental wellness.
2. Outdoor Play Areas: Safe, stimulating play spaces for children and fitness trails for the entire family.
3. Healthy Kitchens: Equipped with smart cooking appliances and water filtration systems for easy, nutritious meal preparation.
4. Target Clients: Families seeking a healthier, more connected lifestyle.

Key Benefits: Supports family health and wellness in a cohesive, nurturing environment.

Nature-Integrated Living Spaces

Features:
1. Indoor-Outdoor Living: Large windows, open-air patios, and garden spaces integrated into daily living areas.
2. Nature Therapy Programs: Access to activities like forest bathing, gardening, and nature walks.
3. Sustainable Materials: Homes built using eco-friendly, natural materials like wood and stone.
4. Target Clients: Nature lovers and those looking to reconnect with the environment for better mental health.

Key Benefits: environment for better mental health.
Key Benefits: Enhances mental well-being, reduces stress, and fosters a deeper connection with nature.

Multi-Generational Wellness Communities

Features:
1. Intergenerational Living: Homes designed to accommodate extended families, with shared spaces for interaction and separate areas for privacy.
2. Health Monitoring: Wearable tech and smart home systems that track the health of each generation, from children's activity levels to seniors' well-being.
3. Group Wellness Programs: Wellness activities for the whole family, such as yoga for all ages, fitness classes, and family-centred wellness coaching.

Key Benefits: Promotes mental clarity, reduces anxiety, and fosters emotional well-being in everyday life.

Longevity Suitcase (Mobile Blueprint)

A 10 kg travel case packed with devices for on-the-go Longevity Diagnostics and Treatments

Longevity Sleeping Room

The Sleep Room Blueprint enhances sleep with advanced technologies

Longevity Home

Longevity Biohacking Room Blueprint
The Longevity Biohacking Room Blueprint transforms the home's most commonly-occupied living spaces into an ergonomic system for Health, Longevity and Performance Enhancement through a combination of AI Co-Pilot-guided, executed and adjusted equipment.

Featuring diagnostic and prognostic tools and cabinets, non-intrusive and easily storable medical devices and at-home therapies, both light, medium and intensive stow-away home exercise modules, and 'lite' versions of other more intensive diet, exercise and rest equipment found in other rooms within the Longevity Home, the Longevity Room is the meeting-point of all other room-specific Longevity Home blueprints and protocols.

With equal focus on Health, Performance and Longevity, most of its equipment is easily stowable, its permanent fixtures also serve as stylish design elements, and the entire system is guided by IoT and sensor-connected AI Co-Pilots which adjust their real-time recommendations and specific protocol compositions according to homeowner sensors (e.g. wearables) and smart-home sensors.

Types of Longevity Room Practices

Diagnostic and Monitoring Practices

High-frequency Testing	Body Composition Analysis
AI-Powered Monitoring Devices	Biomarkers Assessment
Cardiovascular Monitoring	Sleep Tracking

Treatment and Therapy Procedures

IV Treatments	Hormone Replacement Therapy
Intermittent Hypoxic - Hyperoxic Treatments	Ozone Treatment
Nutritional Counseling	Light Therapy

Sports and Physical Well-being

Cardio Workouts	High-Intensity Interval Training
Oxygen Therapy	Virtual Cycling or Running
Hyperbaric Breathing Exercises	Smart Resistance Training

Cosmetology and Aesthetic Care

At-Home Facial Treatments	Personalized Skincare Routine
Electromagnetic Stimulation	Dermoscopy for Skin Analysis
Microdermabrasion	Chemical Peels

Longevity Sleeping Room Blueprint

The Sleeping Room Blueprint aggregates the best technologies and protocols available for sleep optimization, from air, temperature and brightness control to sleep-focused NeuroTech, vibration dampening and sound isolation, and real-time monitoring of carbon dioxide and monoxide.

Besides deep sleep-optimization protocols and equipment, it also features a number of technologies and modalities designed to apply light health and Longevity-enhancing therapies that are safe to execute during sleep, such as salt walls.

A wealth of data have confirmed that **sleep is one of the very best Longevity Medicines**, and optimization of external and environmental factors affecting sleep pattern, depth, duration and quality can have the same tangible effects as changes to diet and exercise.

Safety Monitoring Systems

Electromagnetic Shielding	**Fire Alarm System**	**Geiger Counter Integration**	**Smart Wake-Up Technology**

Longevity Kitchen Blueprint

The Longevity Kitchen aggregates the best protocols and equipment for optimizing diet to meet homeowner Health, Longevity and Performance Goals.

It is equipped with a wide array of smart appliances and advanced technologies that are guided by sensor-equipped AI Co-Pilots which give automatic recommendations based on homeowner diet history and health sensors (e.g., wearables), serve as Co-Chefs via VR and AR Goggles to give home cooks a more data-enabled view for meal preparation, and automatically restock groceries according to meal plans and needs via fridge and freezer sensors.

It features sophisticated water purifiers and filters, and IoT-enabled that infuse the home's water with negatively charged ions, ozone and hydrogen, and purify it via double distillation and the production of "dead water".

It also is equipped with specialized fixtures for therapeutic foods like fermented kombucha, kefir, and sauerkraut, and makes real-time meal-specific flavoring recommendations that incorporate Ayurvedic spices which offer tangible therapeutic benefits and closely match the meal's desired taste profile.

Longevity Suitcase (Mobile Blueprint)

The Mobile Blueprint is a travel case weighing up to 10 kg, equipped with various devices for **Longevity Diagnostics** and **Treatments**. Tailored for portability, this blueprint combines essential tools for Health, Performance and Longevity Optimization at work, during trips and on-the-go.

Smartphone-integrated and AI-Co-Pilot enabled, the Longevity Suitcase applies the same real-time AI-augmented blueprint execution and adjustment as the other Longevity Home blueprints.

Through its AI Co-Pilots, the suitcase adjusts both levels and frequency of output, executed blueprint composition and the specific nature of its real-time personalized recommendations according to external sensors (e.g. measuring ambient environmental hazards) and user sensors (diagnostics, health wearables, etc).

It enables users to apply a similar standard of living while away from the home on business trips and vacations, or when at work. If 'home is where your health is', the Longevity Suitcase allows you to bring your home wherever you go.

Longevity Home Pillars

## 1. Neutralizing Environmental and Material Hazards in the Home

Pillar 1: Protecting home from internal and external hazards (electromagnetic, material and chemical), and optimizing air and water within the home

2. Equipping Home with Health, Longevity and Performance-Augmenting Hardware

Pillar 2: Installing Health, Longevity and Performance enhancing equipment and hardware in the home (diet, exercise, medical, diagnostic, wellness, sleep, lifestyle, cognitive, social, etc).

Longevity Home

3. Blueprints and Protocols
Pillar 3: Blueprints and Protocols that define how the home's hardware and software are integrally applied to Health, Longevity and Performance. Each room has its own Blueprint, applied and adjusted in real-time by AI Co-Pilots equipped with sensors.

4. AI Co-Pilots

Pillar 3: AI Co-Pilots that apply blueprints and protocols in real time.
Each blueprint has its own AI Co-Pilot for real-time adjustment according to IoT sensors (homeowner diagnostics and wearables and ambient home sensors).

Market Intelligence Dashboard Products, Tools and Value Offering

Deep Knowledge Group's 10+ thematic analytical subsidiaries are technically unprecedented in their capabilities for domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Systems. It is on this strong basis that each of our thematic Big Data Analytics Dashboards are built.

While each thematic analytical dashboard and market intelligence system comes with its own unique composition of products and tools, very often they will feature tools focused on analytics and assessment, entity (company, investor) profiling, evaluation and comparison, smart-matching (ecosystem entities that fit client's profile and needs), and operational environment visualization and mapping, and products focused on benchmarking (identifying and ranking top players), blueprints (ideal product or service offering compositions based on analysis of top players), company-targeted recommendations and custom market reporting.

Market Intelligence Dashboard Tools	Market Intelligence Dashboard Products	Market Intelligence Dashboard Use Cases and Value Offerings
• Analytical and assessment tools • Evaluation and comparison tools • Entity-specific SWOT, benchmarking (ranking) and forecasting tools • Smart-matching tools • Visualization and mapping tools • Custom reporting tools • Database management tools • Research and parsing tools	• Benchmarks and indices: quantitative qualitative, comparative and competitive ranking of top thematic entities (e.g., companies, investors, technologies) • Blueprints: ideal composition (component pipeline) of dashboard's thematic focus, built from analysis of top players (e.g., ideal clinic blueprint, ideal product/service blueprint, etc.) • Custom benchmarks and reports	• Industry ecosystem and operational environment monitoring and mapping • Identification and analysis of competitors, potential partners, investment targets, etc. • Improving corporate strategy on basis of top players analysis • Recognizing and adapting to decisive market and ecosystem trends early

Forms of Proposed Cooperation

Deep Knowledge Group offers a variety of collaboration and cooperation options for parties seeking to enhance their strategic decision making, corporate and operational intelligence, and tactical execution capabilities by accessing one or more of our 70+ health and life sciences-focused Big Data Analytical Dashboards and Market Intelligence Systems.

We offer access to our Dashboards across 3 tiers: Subscription (baseline access to tools and components), White Label Solution (access to full scope of features with certain degrees of customization, personalization and plug-and-play feature selection), and Custom Dashboard Creation (end-to-end customized solution tailored to your specific operational needs and requirements).

| Big Data Analytics Dashboard Subscription	Big Data Analytics Dashboard White Label Solution	Custom Market Intelligence Dashboard Creation
• Subscription access is the most economical option for parties seeking to utilize our dashboards • Offers full scope of ready-for-use analytics, corporate and competitive intelligence, market monitoring and benchmarking tools • Discounted rates for multi-dashboard access available.	• Enhanced access to a wider scope of Dashboard features and functionality • Includes a certain degree of client-directed Dashboard component and functionality customization and personalization and plug-and-play feature selection • Highly flexible choice of data sources	• End-to-end custom solution tailored to the operational and organizational needs and specifics of the client • Plug-and-play feature selection • Ground-up custom design of new components according to client need • Most versatile, customizable and sophisticated option available

We are open to a mutually beneficial cooperation
