Deep Knowledge Group Corporate Vision and Strategic Agenda

Deep Knowledge Group is a data-driven consortium of commercial and non-profit organizations active on many fronts in the realm of DeepTech and Frontier Technologies (AI, Longevity, BioTech, Pharma, FinTech, GovTech, SpaceTech, FemTech, Data Science, InvestTech), ranging from scientific research to investment, entrepreneurship, analytics, consulting, media, philanthropy and more.

As a mathematical corporation focused on building the bridge to the 5th Industrial Revolution, Deep Knowledge Group is decisively committed to DeepTech for Social Good, Techno-Philanthropy and DeepTech and Longevity Industry Financial Commoditization (establishing the core investment and financial industry infrastructure needed for the emergence of DeepTech and Longevity as fundamentally new asset classes).

Deep Knowledge Group remains decisively committed to developing and deploying reliably sophisticated and multidimensional Big Data analytics and AI-driven technological forecasting and benchmarking of DeepTech, Longevity and related industries, pioneering the fundamental tools required for strategic decision-making in these unprecedentedly complex and innovation-driven sectors, laying the foundation and basis for defining, thinking about and understanding the coming DeepTech Revolution.

However, more than this, the Group remains just as decisively committed to the practical execution of many of these forecasted developments by establishing the core investment and financial industry infrastructure (platforms, indices, exchanges, financial instruments and derivatives) needed for accelerated and de-risked DeepTech and Longevity Industrialization, and their emergence as fundamentally new asset classes.

Senior Management Team

Our Team

Dmitry Kaminskiy
General Partner

Dmitry Kaminskiy, residing in London, is a seasoned investor and entrepreneur in the Longevity Industry. He is the Founder of Deep Knowledge Ventures and Aging Analytics Agency, both established in 2014.

[Read more about Dmitry Here](#)

Stefan Hascoet
Managing Partner
Head of Swiss Activities

Stefan Hascoet, located in Geneva, is the Head of Swiss operations. He brings over 15 years of expertise in capital markets, specializing in investment products, derivatives, and non-recourse lending solutions.

Kate Batz
Managing Partner
Head of US Activities

Kate Batz, situated in Miami, serves as the Head of US operations. She holds law licenses in California and New York, boasting over 15 years as a corporate attorney, well-versed in legal intricacies.

[Read Kate's Full DKV Story Here](#)

Franco Cortese
Managing Partner
Head of Corporate Strategy

Franco, based in Toronto, Canada, is the Managing Partner at Aging Analytics Agency. A key figure since 2017, he co-authored the impactful XT9T code for aging-related diseases in WHO's ICD-11, fueling agency growth.

Bohdan Tretiakov
Head of IP Department

Bohdan Tretiakov, a seasoned legal professional, adeptly guides his team through intricate IP cases. His prowess spans patent disputes to trademark registrations, showcasing a knack for ingenious legal solutions. Driven by a fervor for industry trends, Bohdan maintains the company's IP strategy on the cutting edge, harmonizing it with strategic business objectives.

Aksholpan Alpysbay
Strategic Business Development
Technologist

Aksholpan is responsible for driving business expansion by integrating semi-automated methodologies. Her expertise lies in catalysing diverse trajectories within SaaS platforms and custom on-premises solutions, particularly in the realm of Remote Sensing Techniques across the regions, including Singapore, Central Asia, select parts of the United States, and Eastern Europe.

Ian Inkster
Aging Analytics Agency
Head of Policy Analytics,
Chief of Geroscience
and AgeTech Analytics

Based in Edinburgh, UK, Ian Inkster brings over 10 years of expertise in aging and Longevity research analytics. A consummate professional, he combines data-driven insights with a keen understanding of Geroscience and AgeTech landscapes, contributing to impactful strategies and innovations in the field.

[Read Ian's Full DKV Story Here](#)

Roxy Iqbal
Director of Strategy and
Communication

Roxy Iqbal brings a wealth of experience to philanthropic endeavors. With a deep grasp of the philanthropic landscape, Roxy offers expert guidance and stakeholder engagement across diverse projects, notably in the Longevity sector. Their astute leadership and commitment to fostering positive social change greatly enhance the organization's philanthropic initiatives.

Deep Knowledge Ventures / Co-Founder
[5th Industrial Revolution Institute](#) / Co-Founder

[Biogerontology Research Foundation](#) / Managing Trustee
[Longevity International Association](#) / Co-Founder
[Philanthropy.International](#) / Co-Founder of the Project

Dmitry Kaminskiy is an innovative entrepreneur and investor dedicated to the acceleration of Longevity and DeepTech Industrialization and Financial Commoditization. He is also the author of several books including *The 5th Industrial Revolution* and *a Techno-Philanthropist* devoted to hastening the pace of technological progress for the benefit of global society.

Mr. Kaminskiy is a Co-Founder and managing partner of Deep Knowledge Group, a data-driven consortium of commercial and non-profit organizations active on many fronts in the realm of DeepTech and Frontier Technologies (AI, Longevity, BioTech, Pharma, FinTech, GovTech, SpaceTech, FemTech, Data Science, InvestTech), ranging from scientific research to investment, entrepreneurship, analytics, consulting, media, philanthropy and more.

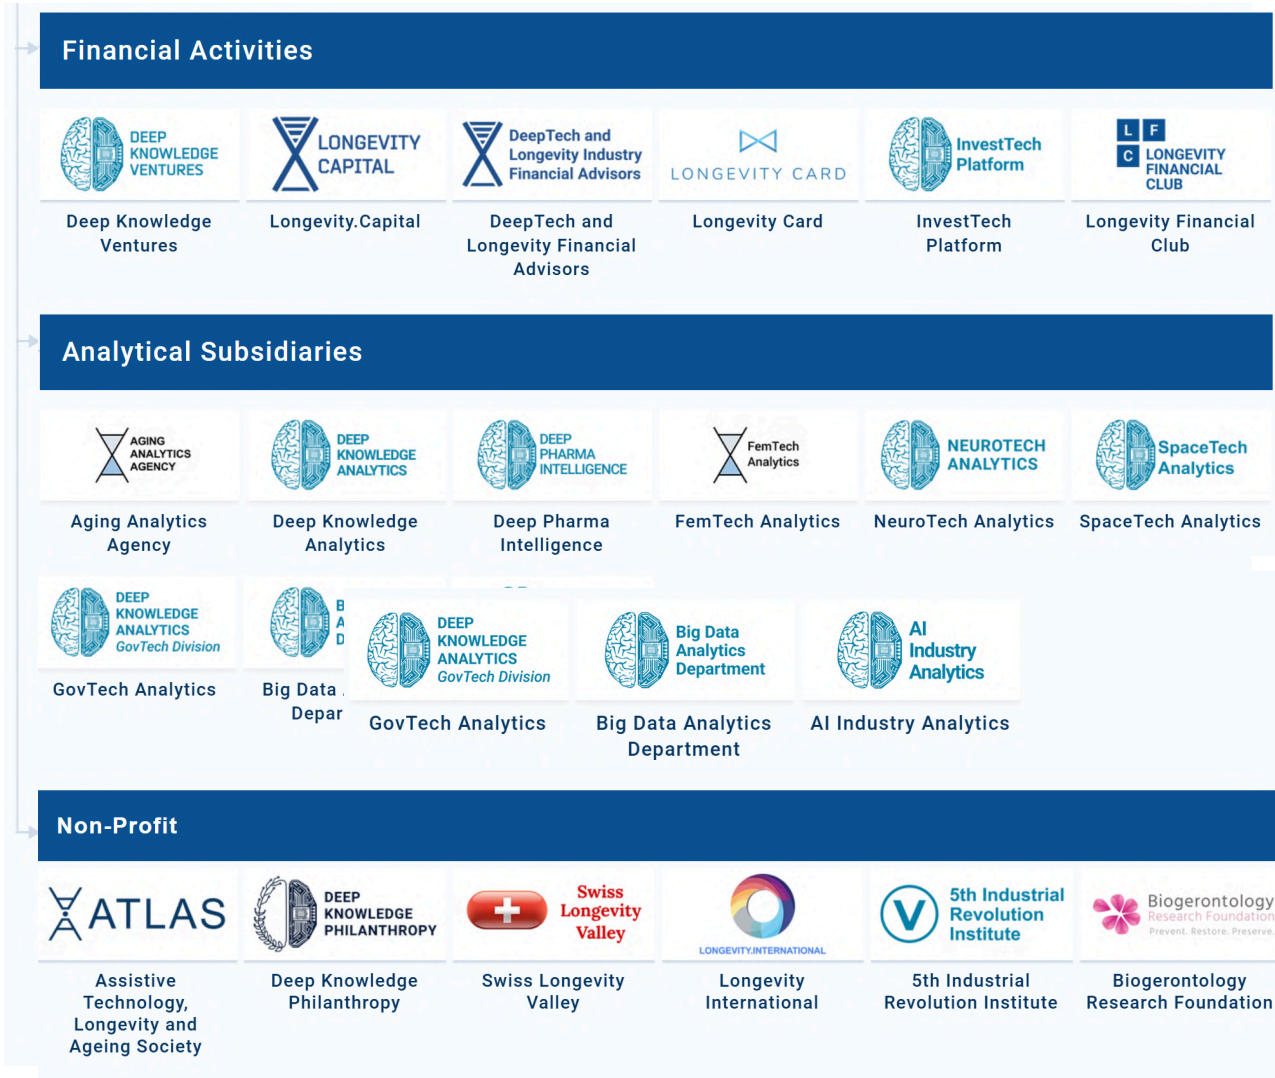

As a mathematical corporation focused on building the bridge to the 5th Industrial Revolution, Deep Knowledge Group is decisively committed to DeepTech for Social Good, Techno-Philanthropy and DeepTech and Longevity Industry Financial Commoditization (establishing the core investment and financial industry infrastructure needed for the emergence of DeepTech and Longevity as fundamentally new asset classes).

Dmitry leads the activities of the consortium's venture arms - Deep Knowledge Ventures, an investment fund focused on DeepTech and advanced science projects, Longevity.Capital, which prioritizes the convergence of Longevity and Artificial Intelligence, areas in which it has unparalleled investment and exit strategies, and DeepTech and Longevity Industry Financial Advisors, the consortium's dedicated DeepTech and Longevity Financial Commoditization subsidiary launched with the mandate of establishing the integral financial infrastructure (platforms, indices, exchanges, financial instruments and derivatives) needed for accelerated and de-risked DeepTech and Longevity Industrialization, and their emergence as fundamentally new asset classes.

Dmitry Kaminskiy is author of the books 'Biomarkers of Human Longevity' and 'Longevity Industry 1.0 - Defining the Biggest and Most Complex Industry in Human History'. www.longevity-book.com

He also closely supervises the work of the 5th Industrial Revolution Institute, a social enterprise launched to carry forward Deep Knowledge Group's long-standing vision and mission to ensure that all necessary technological and infrastructural components of the 5th Industrial Revolution are in place before the year 2030.

Deep Knowledge Group Organizational Structure

Financial Activities: The venture arm of Deep Knowledge Group (DKG) has been an active investor in Frontier Science and Technology domains since 2014, and the consortium has a number of domain-specific finance-focused subsidiaries and projects. Since 2022, the focus of its financial arm has been on defining and developing the core investment and financial industry infrastructure (platforms, indices, exchanges, financial instruments and derivatives) required for DeepTech and Longevity Industry Financial Commoditization and the emergence of these industries as fundamentally new asset classes.

Analytics: DKG’s 10+ thematic analytical subsidiaries across Longevity, BioTech and Pharma, FemTech, AI, GovTech and DeepTech are the knowledge engines driving the consortium’s long-term strategic agenda, technically unprecedented in their domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting capabilities, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP, and Big Data Analytics Systems.

Non-Profit (Techno-Philanthropy and DeepTech for Social Good): DKG has been committed since 2014 to the corporate thesis of DeepTech for social impact, techno-ethical business for social good and the creation of tangible socioeconomic benefit as a core ROI. It has a number of non-profit subsidiaries applying Techno-Philanthropic approaches to its core areas of focus, including DeepTech and Longevity.

Internal Corporate Productivity Enhancement Platforms and Pipeline

In order to establish core asymmetric advantages over our primary competitors in a lean and sustainable manner, and achieve technical equivalency or supremacy with organisations with much greater capital resources than us, Deep Knowledge Group (DKG) has developed an end-to-end infrastructural suite of tools, platforms and solutions for streamlining workflows, enhancing productivity, and fostering more efficient team and cross-department collaboration, **enabling 10x the output that would be otherwise possible with its current workforce, with substantive emphasis on massive platformization and AI Co-Pilot development and integration.**

These internal platforms utilize a sophisticated scope of back-end and front-end infrastructure streamlined for internal use by DKG personnel (and in some very select cases by DKG-authorized external partners and project-specific representatives), with the primary purpose of creating a consolidated, maximally automated, efficient and cyber-secure collaborative workspace (typically only accessible via sign-in using a dkv.global email address) for designing, developing, managing, monitoring, tracking, executing and reciprocally learning from the execution of Deep Knowledge Group projects, products, thematic multi-project workflows and entire departments.

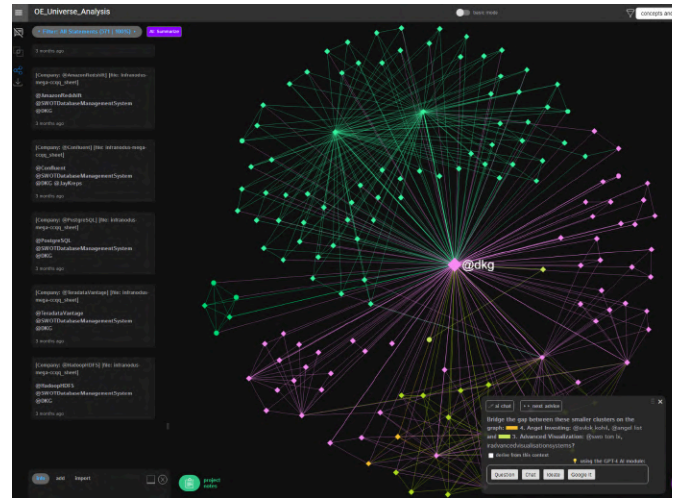

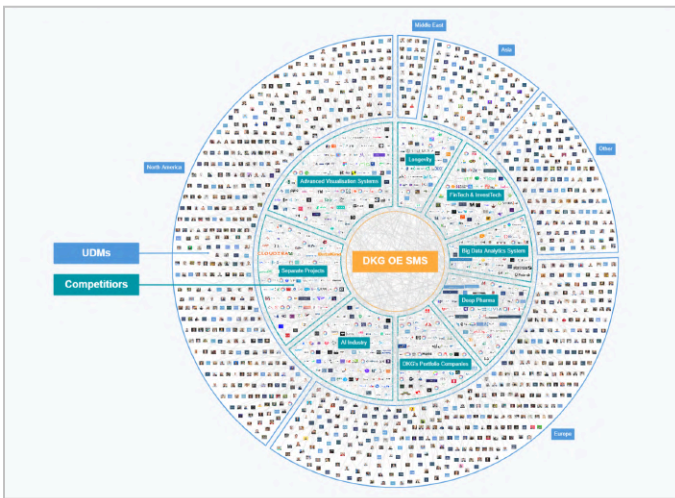

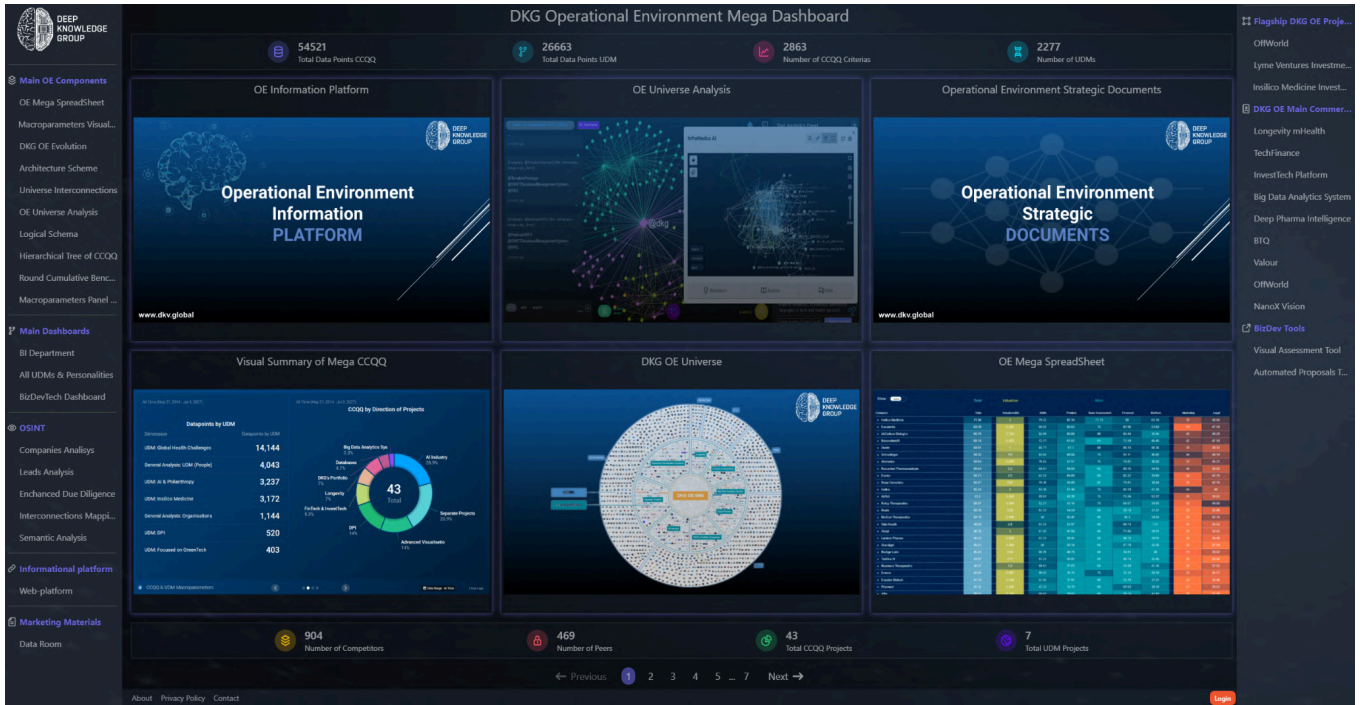

The screenshot displays the 'Deep Knowledge Group Organizational Admin System' interface. At the top, the user 'Franco Cortese' is logged in. The main dashboard features a central circular diagram titled 'DEEP KNOWLEDGE GROUP KEY PARAMETERS' with the following metrics: 70+ DASHBOARDS, 67 PEOPLE, 800+ PROJECTS, 20 COMPANIES, 70+ SAAS AND FRONTEND, and 200 IT PLATFORMS. Below this, there are sections for 'Big Data Analytics System & Dashboards', 'Implemented and Ongoing Projects', 'Next-Generation SaaS and Frontend Tools', 'Companies within Deep Knowledge Group', and 'Ecosystem Mapping Advanced Platforms'. A prominent section titled 'The 5th Industrial Revolution' contains a grid of technology and risk categories such as MetaTechnologies, DeepTech, Politech & SocialTech, Financial Systems, and various risk types. At the bottom, the 'AI Agents' section lists several tools: Longevity GPT, Legal Eagle, DKG IT Assistant, DKG Database Assistant, Privacy Law Navigator AI, and DKG GovTech Guide. The interface is framed by a left sidebar with navigation menus (DKG Departments, Business Development And Sales Platform, Registries, AI Agents) and a right sidebar with tool categories (IT TOOLS, Folders, Next Generation Projects, No-Code Dashboard Tools, Document Creator, Dashboards, Database Management System).

Deep Knowledge Group Corporate Competitive Intelligence, Operational Environment Monitoring Semi-Automated Business Development Pipeline (Proprietary Tech Stack)

Sophisticated end-to-end proprietary tech stack and IT infrastructure for corporate operational environment analysis, monitoring, competitive and market intelligence, automated business development and investor relations: the no.1 technologically sophisticated data-driven AI-augmented solution for corporate defence, development, and management in the 21st century.

The image displays two screenshots of a complex dashboard system. The top screenshot is titled "BisDevTech Dashboard" and features a grid of six panels: "Registry of Decks and Promo Materials", "Approved Decks Panel", "Scala Materials", "Admin Panel Components", "Registry of BisDevTech Materials", and "Registry of Data Rooms". The bottom screenshot is titled "Mega Dashboard" and features a grid of six panels: "DKG Operational Environment Mega Dashboard", "Business Intelligence Dashboard", "Business Development Dashboard", "DKG Administrative Dashboard", "DKG All Personalities & UDMs", and "DKG Admin Panel". Both dashboards include a left-hand navigation menu with categories like "Main Items", "Components", "Databox: Engagemen...", "Main Dashboards", "Visual Components", and "Benchmarks". A right-hand navigation menu lists various tools and services such as "Digital Avatar", "Cooperation Platforms", "CRM", "AI Agents", "Lead Activity Trackin...", "BisDevTech Tools", "Admin Panels", "Tools", "Folders", "OSINT", and "Support". At the top of the Mega Dashboard, four key metrics are displayed: 100,000+ UDM Data Points, 54,000+ CCQQ Data Points, 50+ CCQQ Analysis, and 15+ UDM Analysis. At the bottom of the Mega Dashboard, four more metrics are shown: 10,000+ UDMs, 900+ Competitors, 400+ Peers, and 100+ Enhanced Due Diligence.

Deep Knowledge Group Big Data Analytical Dashboards: 70+ Internal (Proprietary) and External (Commercially Available and Thematic) Market Intelligence Systems)

Deep Knowledge Group Infrastructural Dashboards

The image displays a collection of 15 dashboard screenshots, organized into two main sections: 'Deep Knowledge Group Infrastructural Dashboards' and 'Next Generation Project'.

Deep Knowledge Group Infrastructural Dashboards:

- DKG Admin Panel:** A dashboard with circular gauges and lists for 'Key Charts', 'Others', 'Navigation Menu', 'Milestone', 'ID Organs', 'Dashboard', and 'Build/Run Tests'.
- Mega Dashboard:** A complex dashboard with multiple panels for 'DKG Operational Environment Mega Dashboard', 'DKG Business Intelligence Department Dashboard', 'DKG BisDevTech Department Dashboard', 'DKG Administrative Dashboard', 'DKG All Personalities & UDMs', and 'DKG Admin Panel'.
- Deep Knowledge Group Operational Environment:** A dashboard with 'DKG Operational Environment Mega Dashboard' and various charts for 'DKG OE Universe', 'DKG OE Mega Spreadsheet', 'DKG OE Information Platform', 'Operational Environment Strategic Documents', 'Dashboard Visual Summary of Mega CCOQ Spreadsheet', and 'DKG Enterprise Analysis'.
- Personalities, DMs, and UDMs Dashboard:** A dashboard for 'DKG All UDMs & Personalities' with various charts and data points.
- DKG Business Intelligence Department Dashboard:** A dashboard for 'Business Intelligence Department' with various charts and data points.
- DKG BisDevTech Department Dashboard:** A dashboard for 'BioDev/Tech, Partnership/Tech and Investment Relations Dashboard' with various charts and data points.
- DKG Administrative Dashboard:** A dashboard for 'Deep Knowledge Group Administrative Dashboard' with various charts and data points.
- Dashboards Marketplace:** A marketplace for various dashboards with categories like 'Longevity Research/Investment Analysis', 'B.A.M. Layer (Bio system assessment)', and 'Market Development Dashboard'.
- White-Label Solutions Platform:** A platform for 'DKG IT system White Label Solution Platform' with various dashboard templates.

Next Generation Project:

- Longevity Clinics Metaverse:** A 3D visualization of a city grid with various data points and a central figure.
- Multi-Dimensional Vector Space and Operational Environmen:** A dashboard with multiple circular gauges and data points.
- Geo Dashboard Constructor No Code:** A dashboard for 'Geo Dashboard Constructor No Code' with various charts and data points.
- The 5th Industrail Revolution:** A dashboard for 'The 5th Industrial Revolution' with a grid of letters and various data points.
- Multi Dimensional Vector Space:** A dashboard for 'Meta Systemic Synthetic Environment' and 'Multidimensional Vector Space 4.0' with various charts and data points.
- Longevity Financial Industry Dashboard:** A dashboard for 'Longevity Financial Industry Dashboard' with various charts and data points.

DeepTech and Longevity Financial Commoditization

Developing the ecosystemic infrastructure (platforms, indices, exchanges, financial instruments and derivatives) to support the emergence of DeepTech and Longevity Industries as fundamentally new asset classes

Big Data Aggregation, AI-driven Analysis, and Visualization

Automatized data parsing, aggregation, optimization of machine learning and deterministic scoring algorithms for competitor matching, and due diligence results

Financial Insights and Investment Strategies

Modern InvestTech solutions and DeepTech investment approaches driven by Data Science and Big Data Analytics

Flagship Structured, Saleable, Strategic and Commercial Projects (White Label Solutions)

- 1. End-to-End Synthetic Operational Environment, Business Intelligence, Investment Relations Automated Business Development Dashboard (White Label Solution):** sophisticated end-to-end White Label Solution for Tech Industry investment universe analysis, monitoring, market intelligence, benchmarking, automated business development and investor relations - the N1 technologically sophisticated data-driven and AI-augmented solution to corporate defence, development and management in the 21st century. www.dkg-platform.solutions/business-intelligence
- 2. Industrial Ecosystem Mapping Platform Production for Governments - Advanced Solution for Attracting Inward Investments and Showcasing National Competitive Strengths:** the world's most advanced tech-stack for creating interactive domain-specific, regional, industrial and corporate ecosystem mapping platforms to showcase the unique strengths of tech, innovation and industry ecosystems in an unprecedentedly advanced, technologically robust and visually sophisticated manner. Ideal means for government authorities and related entities to expand their international visibility and recognition, create the impression of a one-stop-shop or analogy to digital virtual 'Pavilion' for its mission, achievements and assets, optimize and expand their engagement efforts with regards to attracting inward investment, create and consolidate a maximally actionable and tactical next-generation Brand Kit, and build a maximally sophisticated, interactive, immersive digital environment for lead capture and conversion that serves as a semi-automatic mechanism for attracting relevant leads to approach them for cooperation, rather than the other way around. www.ecosystem-map.info
- 3. Corporate Ecosystem Mapping Production - Advanced Solution for Corporate Brand Enhancement and Business Development Engagement + Relations:** Utilizing the same scope of advanced ecosystem mapping platform technologies, these services focused on ecosystem platform development for corporations, and offers clients a technologically sophisticated, visually engaging and psychologically impactful showcase of their assets and achievements and a powerful lead engagement tool ideal for lead and stakeholder negotiations and public promotion. www.ecosystem-map.info/corporate
- 4. Longevity Club End-to-End White Label Solution for Longevity Medicine AI, Digital and IT Infrastructure:** End-to-End technological ecosystem, featuring a full-stack IT platform, with desktop and mobile apps, precision medicine scientific solutions, empowered by digital virtual infrastructure and AI-driven core analytical system. Its core value proposition is in the technological sophistication and ease-of-use of its core systems and infrastructure, the extremely high-quality understanding of Longevity Medicine that its diagnostic, prognostic and treatment protocols are based upon, the emphasis on sophisticated component integrability that its ecosystem offers and the diversity of options it offers clinics (i.e., the plug-and-play configurability of its ecosystem components). Whether clinics wish to compliment their existing physical facilities with engaging, ergonomic and powerful AI, digital and IT infrastructure, expand into Longevity Medicine services using best-in-class protocols, or optimize very specific clinical pipelines for particular use-cases, Longevity Club's End-to-End White Label Solution has what they need to succeed. www.longevity.group

5. **Synthetic Longevity Industry Mega-Dashboard: End-to-End Pipeline of Thematic Domain-Specific Longevity Industry Dashboards: Longevity Investment, Financial industry, Medicine, Clinics and Governance:** an integrated end-to-end pipeline on thematic Longevity Dashboards and Big Data Analytical Systems, including Longevity Investment, Public Companies, Financial Industry, Global Governance, UK Governance, and Global Medical Clinics. As developers, owners and ultimate beneficiaries of the largest Longevity Industry Database in the world, we have developed a number of domain-specific Big Data Analytical Systems (BDAS) and market intelligence dashboards on top of this unique asset. www.deep-innovation.tech/longevity-dashboard
6. **AI Pharma Business Intelligence, Investor Relations, Business Development Operational Environment Big Data Analytics Dashboard:** end-to-end solution for AI Pharma-focused corporate strategy optimization and defence, semi-automated AI-driven business development, investor relations, partnership and client acquisition and corporate growth, competitive and market intelligence, and operational environment monitoring, forecasting and analytics. <https://www.deep-pharma.tech/products>
7. **Full-Stack Corporate Defense and Investment Intelligence System - Investment Analytics, Operational Environment Monitoring and Modeling, National Defence-Style Corporate Protection for Longevity and BioTech Companies:** Sophisticated end-to-end White Label Solution for corporate operational environment analysis, monitoring, competitive and market intelligence, automated business development and investor relations: the no.1 technologically sophisticated data-driven AI-augmented solution for corporate defence, development, and management in the 21st century. Capable of customised, comprehensive corporate strategy optimization and defence, semi-automated AI-driven business development, investor relations, partnership and client acquisition and corporate growth, competitive intelligence, operational environment monitoring and analytics. In its full scope, the system gives its users a guaranteed systemic asymmetric advantage over their operational environment peers and competitors. Through increasingly realistic levels of emulation (increasing data depth and number of modelled parameters), the system provides total awareness of the client's operational environment, and distinguishes between different types of awareness including informational, disinformational operational environment, synthetic operational environment awareness.

Scenarios for Cooperation

[Deep Knowledge Group](#) (DKG) is active on many fronts from commercial product development to investment, philanthropy, advanced technology development, next-generation projects, DeepTech, AI and Longevity Industry Financial Commoditization and novel financial infrastructure development, and highly proprietary Next-Generation Strategic Projects Development. We are open to cooperation with a wide variety of organisation-types according to a wide variety of collaboration scenarios and terms, including commercial, equity-swap, pro-bono and strategic.

While we are most interested in large-scale joint projects, products and ventures in the domains that constitute our long-term strategic priorities ([Longevity](#), [AI](#), [Techno-Philanthropy](#), DeepTech and Frontier Science and Technology), ranging from commercial ventures (e.g., [Longevity Club](#) and other products at the intersection of Practical Longevity and Space Medicine) to novel financial infrastructure development (DeepTech and Longevity indices, stock exchanges and MTFs, financial instruments and derivatives, InvestTech platforms and [Financial Commoditization](#) projects, etc.), we are also open to discussing White Label Solution-based commercial contracts, plug-and-play SaaS contracts, and pro-bono joint project development in cases that serve our strategic aims or align with our broader agenda, and other more unconventional terms and themes of cooperation that fit our strategic short and long-term development agenda, considered on a case-by-case basis.

Deep Knowledge Group can be reached directly at info@dkv.global for all relevant inquiries.
