Market Intelligence and AI-driven Big Data Analytical Dashboard

About Deep Knowledge Group

Deep Knowledge Group is a consortium of commercial and non-profit organisations active on multiple fronts in the realm of DeepTech and Frontier Technologies (AI, Longevity, FinTech, GovTech, InvestTech), ranging from scientific research to investment, entrepreneurship, analytics, media, philanthropy and more.

Deep Knowledge Group runs several data-driven **investments and financial vehicles**

DEEP KNOWLEDGE VENTURES LONGEVITY CAPITAL Longevity Financial Advisors LONGEVITY CARD

Deep Knowledge Group's **analytical subsidiaries** are world leaders in analytics for DeepTech and Longevity industries

AGING ANALYTICS AGENCY Big Data Analytics Department DEEP KNOWLEDGE ANALYTICS GOVTECH DIVISION

NeuroTech Analytics COVID-19 ANALYTICS SpaceTech Analytics

DEEP PHARMA INTELLIGENCE INNOVATION EYE InvestTech Advanced Solutions

FemTech Analytics DEEP KNOWLEDGE ANALYTICS

Deep Knowledge Philanthropy pioneers several infrastructural **social impact projects**

DEEP KNOWLEDGE PHILANTHROPY Swiss Longevity Valley LONGEVITY INTERNATIONAL Biogerontology Research Foundation Prevent. Restore. Preserve. LONGEVITY CHARITY

DeepTech-related Analytical Subsidiaries of Deep Knowledge Group

Deep Knowledge Group's analytical subsidiaries produce advanced analytics on DeepTech and frontier-technology industries using sophisticated frameworks and algorithmic methods that combine hundreds of specifically-weighted metrics and parameters to deliver insightful market intelligence, pragmatic forecasting and tangible benchmarking.

The extensive expertise in DeepTech sectors allowed us to create AI-Driven Big Data Analytics System and Dashboards

Analytical Methods and Systems Developed by Deep Knowledge Group

Created frameworks as a basis for further analytical research of complex industries

Frameworks of Complex Longevity and DeepTech Industries

2013

Produced first-of-their-kind reports on Longevity and DeepTech

Fundamental Analytical Reports

2014 - 2018

Industrial and regional representation of the market development

Advanced Visualization of DeepTech Industries

2019

Different analytical products arranged into thematic dashboards

Big Data Analytics Dashboards

2020 - 2021

Extended the number of dashboards' tools and added the embedded AI Engine

AI-driven Big Data Analytics System and Dashboards

2021 - 2022

The Solution – AI-driven Big Data Analytical Dashboard

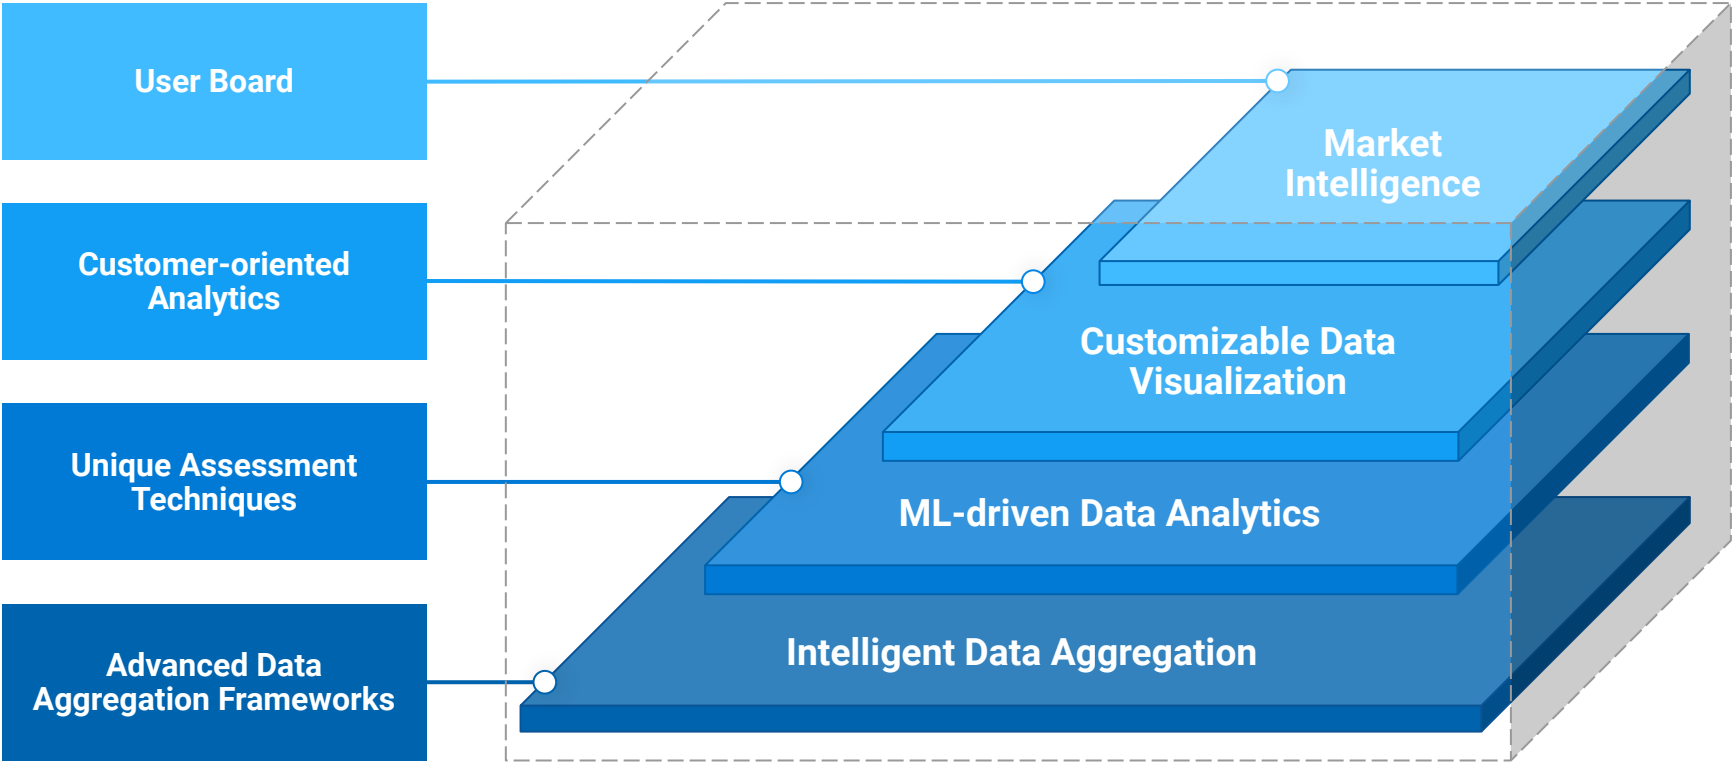

AI Engine of Big Data Analytical Dashboard: Data Science behind the IT Product

Note: below, we describe the toolkit that we implement in other Deep Knowledge Group's projects and will use to build this Tailor-Made Market Intelligence System

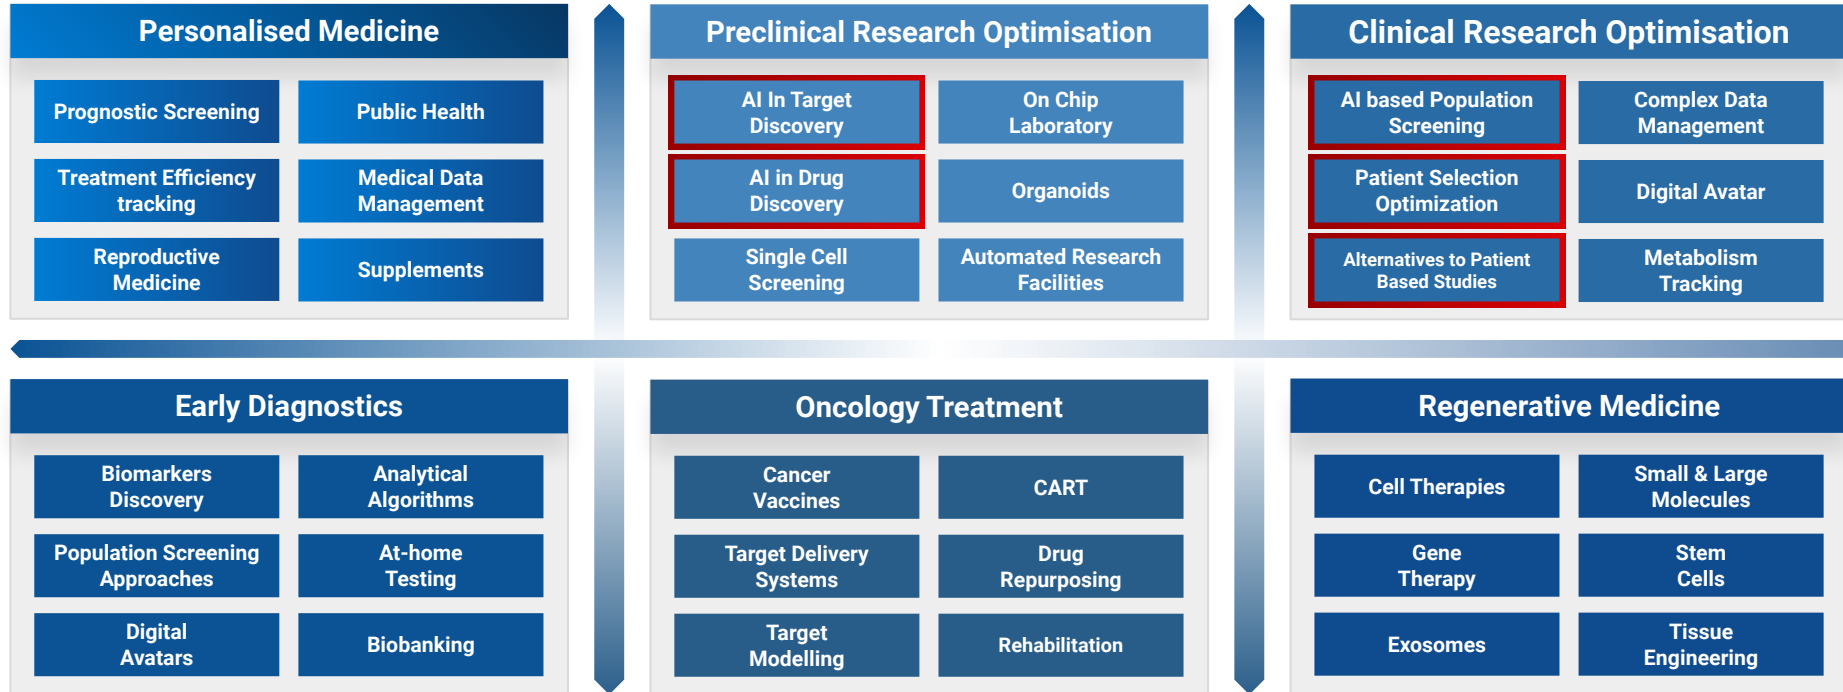

www.deep-pharma.tech

Market Intelligence System and AI-driven Analytical Dashboard IT Architecture

Disruptive Technology in Pharma Framework

Current focus of **Deep Pharma Intelligence (DPI) Dashboard** is aimed at **Artificial Intelligence role in Drug Discovery**. Yet, the **core strategic goal for DPI** is to expand dashboard coverage in order to **include all projected disruptive technologies** and companies that use them in the Pharmaceutical Industry. **The Framework visualizes all potential disruptive sectors in Pharmaceutical Industry which will be presented in Dashboard, while highlighted blocks are categories which are already covered.**

Major Components of Data Science and AI Engine Architecture

Data Aggregation

Big Data Analytics System and Dashboard cover the datasets synthesized from various sources and having the different types of representation

Database Extension

The data sets behind the finalised data provided to users is subject to constant updating to ensure the precise results of analysis

Natural Language Processing (NLP) Engine

Advanced NLP-techniques are used for gathering and storing the multiparametric and high-dimensional data.

Components of Data Science and AI Engine

AI-Based Clustering

Embedded AI engine is able to find the interconnections and form the groups of entities having the similar characteristics

Companies Assessment with Machine Learning

Dashboards provide the ranking of both private and public companies based on the aggregated and constantly refreshed market data

AI-based Predictions

Big Data Analytics System and Dashboard has the modules able to forecast the possible ways of future traction of certain events (such as stock prices) based on the large sets of market data

Accurate Data Science-Based Company Assessment

Pharma Companies

HealthTech Companies

An example of a SWOT analysis of Pharma and HealthTech companies with parameters tailored specifically to market segments.

Tailor-Made Market Intelligence System: Summary

Market-specific IT-platform focusing on data and solutions that are relevant to the market specialist

More than a database: a set of intelligence AI-driven tools providing unique insights on the industry dynamics

Meaningful tools for any type of goals: combination of interpretable analytics and raw-data for the internal research

Cloud-based platform allowing optimal up-time and seamless models update and implementation

Advanced Visualization. Dashboards Constructor

Key Features

E

Enables the creation of tailored and personalized analytical dashboards in a matter of minutes

A

All features that are available on other dashboards are already enabled

S

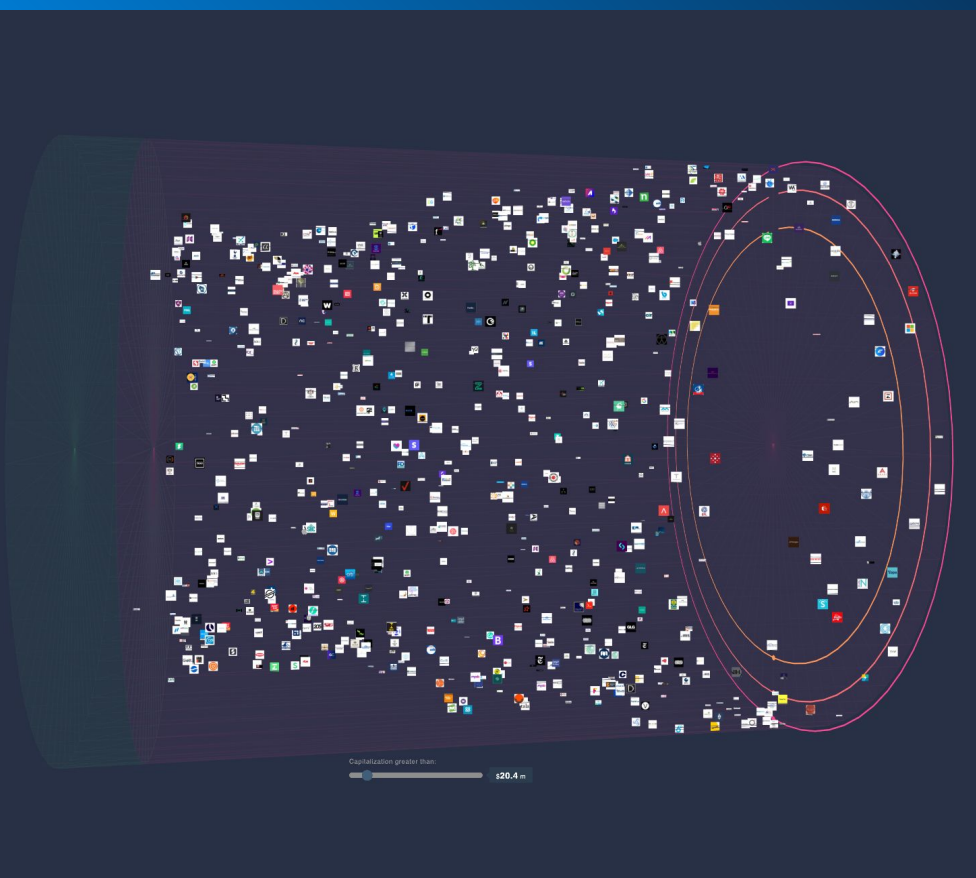

Save time and money on analyst training with a low-code solution

Y

You are the one who decides - purchase a white label solution or request creation-on-demand

Advanced Visualization. 3D Mindmaps Enhancement

Key Features

T

Think in a multi-dimensional way

U

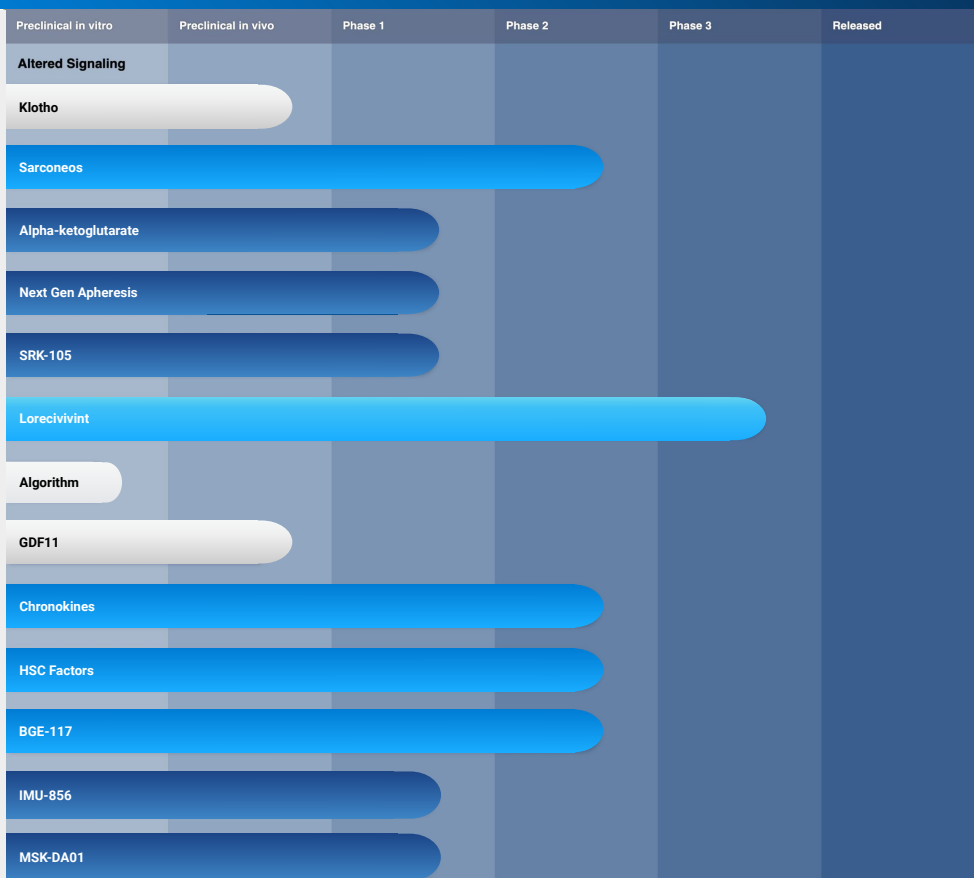

Uniqueness is what valued across the industries. Make your data stand-out

B

Bring the future you are heading for closer, by making right decisions about the market

E

Evolve with the state-of-the-art technological solutions for alternative data analytics

- Constantly-growing database of completed and ongoing Longevity-related clinical trials
- Science-based market insights
- Ranking of therapeutic programs by disorders types
- Regional distribution of clinical trials programs

Thousands of patents on the Pharma Industry to track the latest developments across sub-sectors

Establish scientifically validated market analytics by implementing IP research

Create value proposition for users by ML-driven analysis of the existing patents

Harvest the information on the latest pharma-related IP breakthroughs

K

Kick-start the solution with the same DSSM approach, allowing data management optimization

N

Nested tagging approach for in-depth search

O

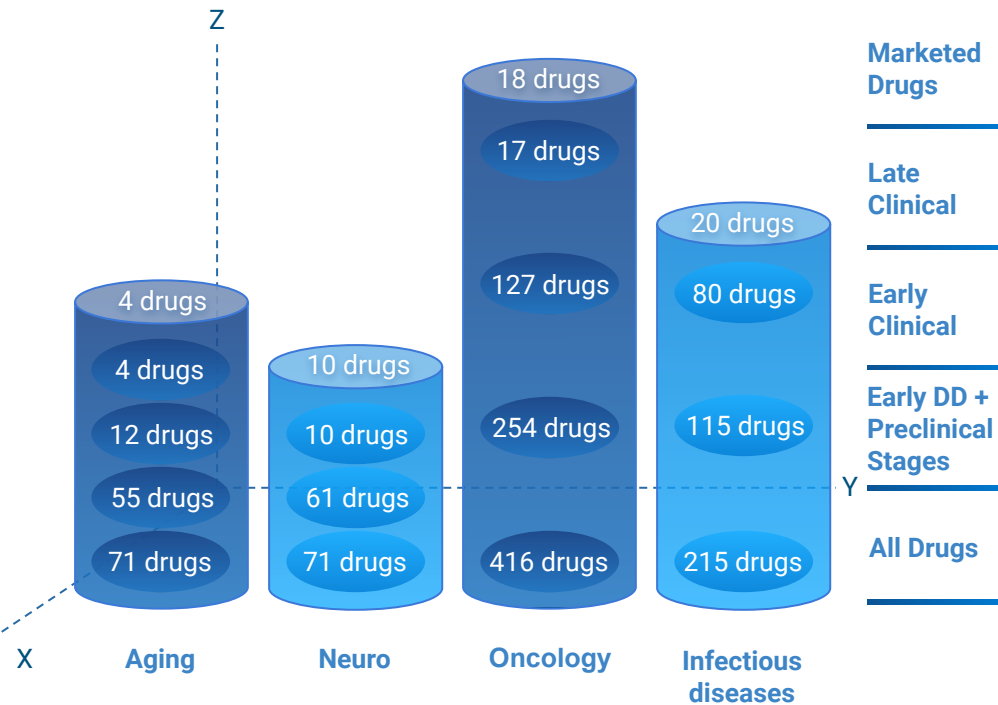

Oftenly-updated and curated database to keep-up with the companies' changes

VV

Vertical Value chain: B2B focus

Drug Discovery Phases Coverage

How?

D Drug Discovery Phases will be sourced via DSSM approach

R Recalculation can be made anytime on-demand

U Unified database will allow tagging any company according to their phase coverage

G Global companies' coverage allow the creation of the most comprehensive database of its kind

Data-focused Tools and Solutions: Summary

Data visualization solutions to bring more clarity to the raw data

Intellectual Property and scientific-related data to indicate the actual company background

Investors and companies brought together to illustrate the under- and over-invested areas of the industry

Market stratification through the solutions and service the companies are currently offering

Automized SWOT Analysis

Our Approach

Radial Analysis of a Longevity-Related Company

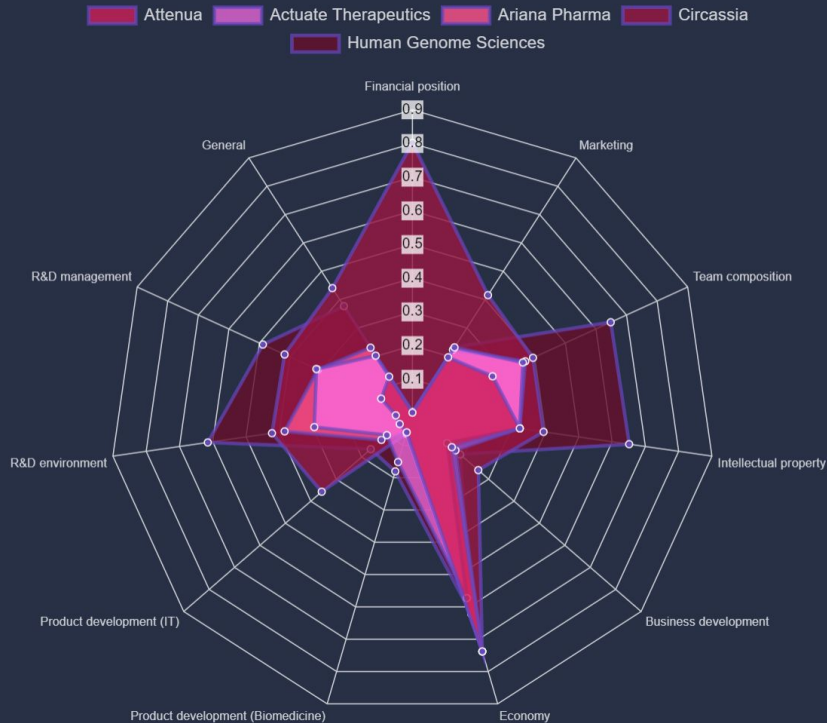

The tool is developed to visualize the overall ranking of an individual company

- 170 unique parameters
- Public and Private companies
- Any types of entities
- Due diligence
- Market intelligence
- Portfolio optimization

- Structured data
- Unstructured data
- Mixed data
- Alternative data
- Cutting-edge Natural Language Processing algorithms
- Cross-validation made by experts
- Industry-adjusted, as well as gross average constants

Radial Analysis of Five Longevity Related Companies

The tool is developed to compare a few selected companies by several hundred parameters

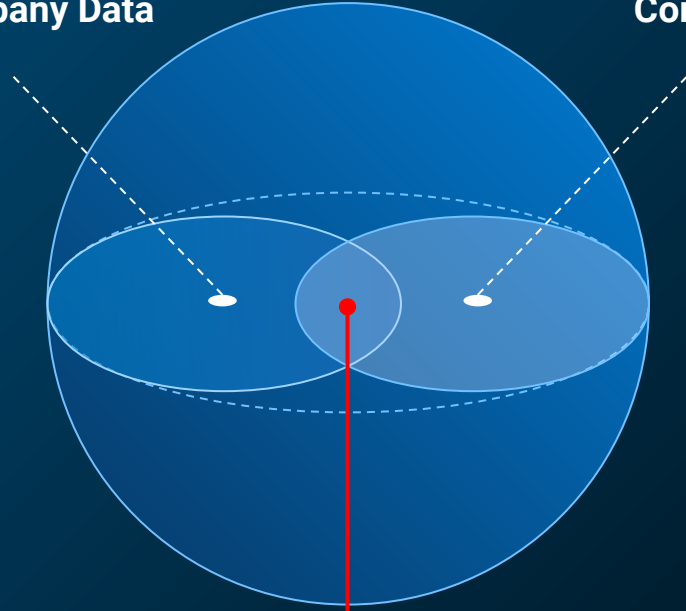

- Unlimited number of compared companies
- Entities from all industries and markets
- On-demand analytics and due diligence for one or multiple companies
- Comparison of hundreds of parameters in a matter of seconds

Private & Public Companies Cross Analysis

Why?

Private
Company Data

Similar Public
Companies'
Data

**Precise Private
Company Evaluation**

R

Reverse the data scarcity among private companies for adequate assessment

A

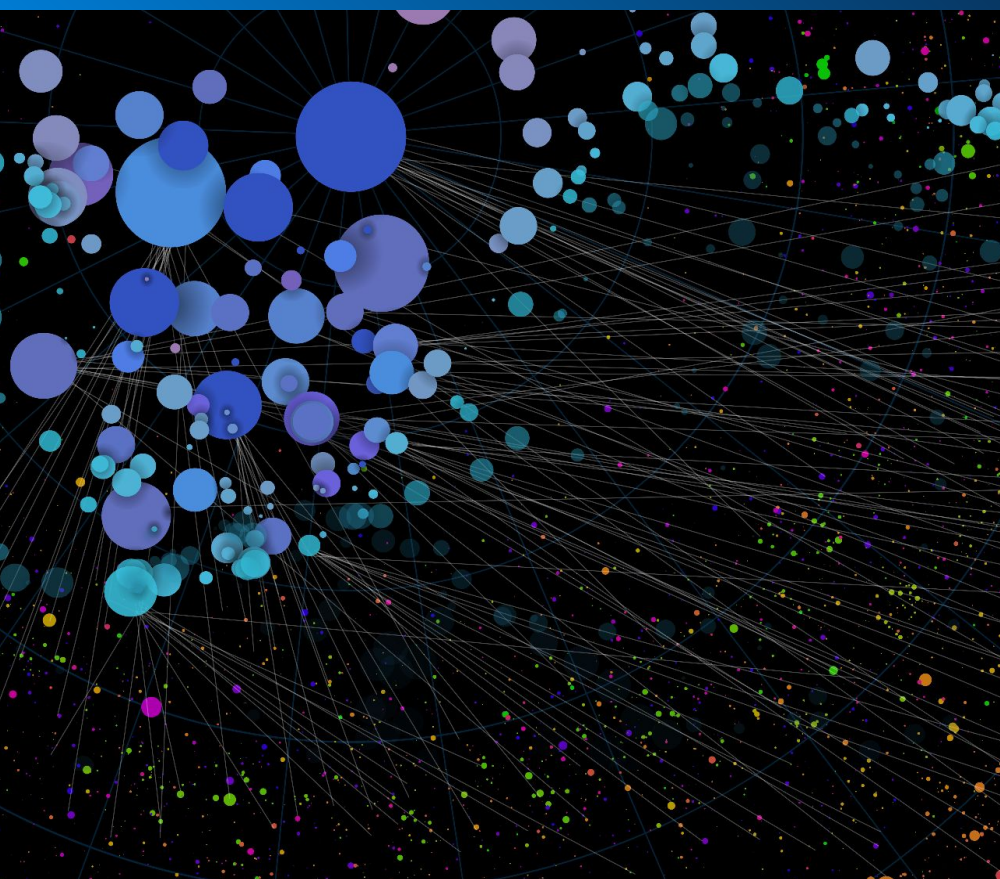

Accelerate private companies due diligence

T

Trace the trends of private and public markets for specific sectors

E

Estimate the growth potential of the late-stage companies

V

Variety of parameters brought together to provide the meaningful market intelligence

I

Intersectoral and cross-sectoral entities assessment

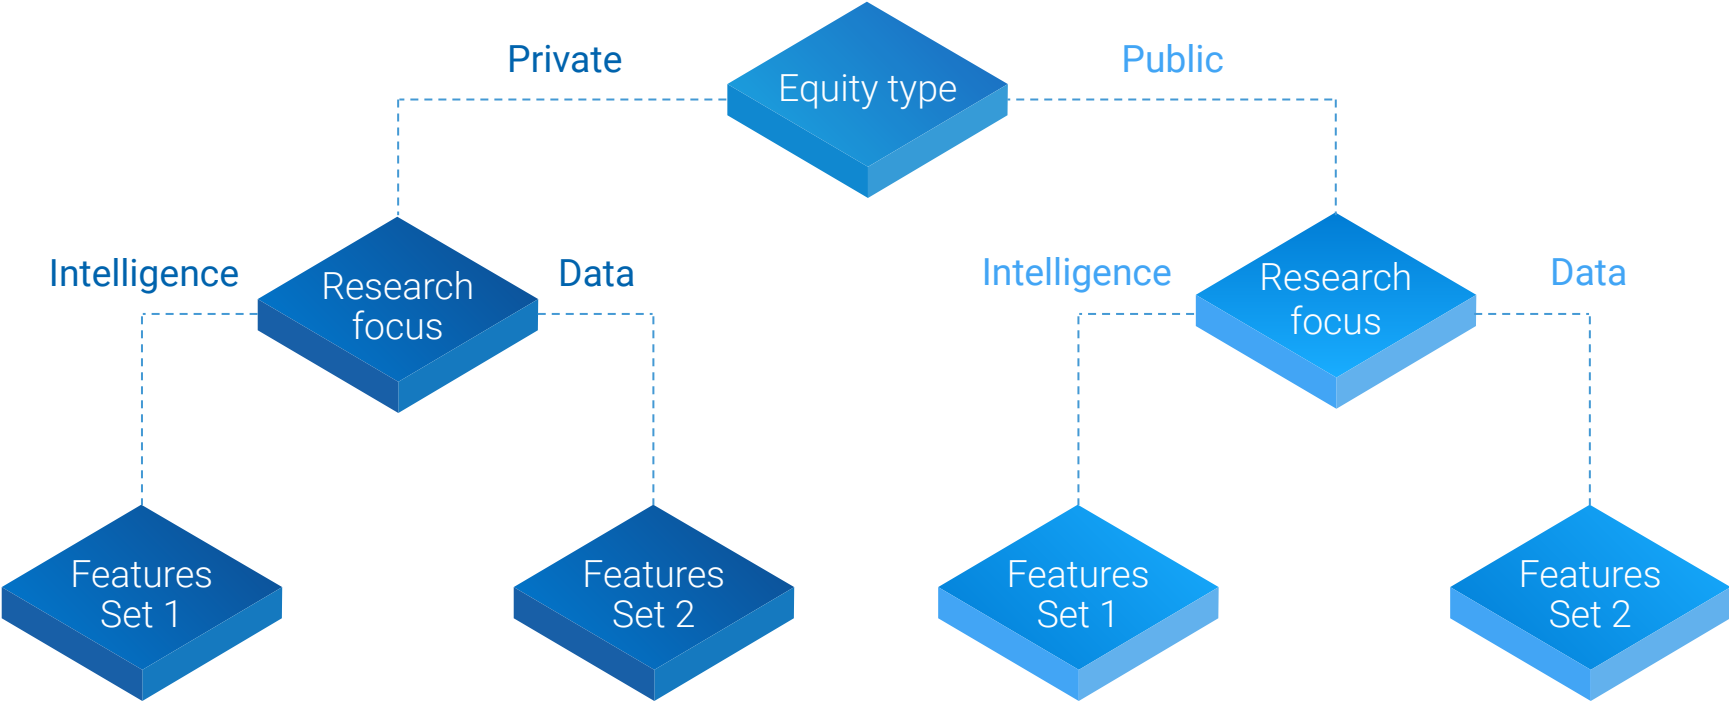

E

Entry and advanced levels of analysis suited for different types of users

W

Weekly-curated database for the latest news analysis across different topics

Platform User Guide Decision Tree

Market Intelligence Tools and Solutions: Summary

Private equity through the lens of data-driven solutions, showing the unique industry's insights

AI-driven competitors analysis for the companies assessment

AI-driven investors matching approach to form the most efficient syndicate for your allocations

Public equity-based benchmarking to understand the future perspectives of the new market players

Proposition Summary

Proposition Summary: Your Needs and Our Solutions

Proposition Summary

Deep Pharma Intelligence aims to provide an ecosystemic market intelligence solution for Pharmaceutical industry specialists, focusing on market-specific metrics and data for the AI in Pharma market, as well as general analytical solutions.

This precisely-designed solution will include data-focused market intelligence tools that provide maximal flexibility to the users. **The platform will also have a specific M&A and due diligence focus in order to provide valuable market insights for industry decision makers, optimizing the research-allocation process.**

This market intelligence solution will be a cloud-based analytical platform, encompassing both a set of pre-validated AI and Big Data Analytical system components developed for other projects in the Deep Knowledge Group consortium, as well as new unique intelligence approaches and technologies.

The flexibility of the platform development process will allow stakeholders to suggest new tools and features tuned to their specific needs, and **the overall development of the system will be made in stages so that the most important solutions (according to partner and stakeholder feedback) will be prioritized.**

While the analytical platform is going to be a solution available for many third parties, Deep Pharma Intelligence is ready to provide a wider range of additional benefits for its clients, which can be discussed separately.

We are open to a mutually beneficial cooperation
