Report Scope and Structure

The report is structured in order to introduce readers to the major trends and players in the industry via several infographic MindMaps, so that the reader can quickly ascertain the report's major analytical findings and conclusions. It provides a framework for better structure readers' understanding of the entire FemTech field. It then dives into greater detail in each successive chapter, focusing on specific areas.

FemTech Landscape Overview describes the FemTech industry in its 2019 state, using our standard mindmap and succinct infographics

The **FemTech Healthcare** chapter covers FemTech which addresses health conditions that do not necessarily progress with age. These companies take a palliative approach and do not influence core aging processes.

The **FemTech Preventive** chapter covers FemTech which addresses health conditions that do not necessarily progress with age. These companies take a preventive approach and do not interfere with core aging processes.

The **FemTech Longevity** chapter covers FemTech which addresses health conditions that progress with age. These companies use disruptive approaches discussed in previous reports (technologies such as geroscience, regenerative medicine, etc), and act upon processes closely linked to biological aging.

Our appendix offers comprehensive profiles of the companies, investors, influencers, and conferences comprising the industry in its current state:

- FemTech Healthcare Companies
