Aging Analytics Agency is the only analytical company focused exclusively on Longevity, Ageing, Geroscience, Preventive Medicine and AgeTech. Operating for over five years, it began producing reports on Longevity long before it emerged as an industry.

Aging Analytics Agency is a Supporting Partner for the UK All-Party Parliamentary Group for Longevity, a Founding Partner of the APPG for Longevity Secretariat Longevity International and an Official Member of the UN NGO Committee on Ageing. By committing available resources and mustering political will, governments of all countries can effectively tackle the aging population challenge. Doing so will help neutralise some of the most dangerous sources of economic and societal instability and help ensure economic prosperity worldwide.

Aging Analytics Agency sees its mission in transforming the ageing population challenge into an opportunity. By utilising AI-driven big data analytics, benchmarking and profiling national and local industry strategies, it aims to come up with Longevity policy initiatives and develop Longevity strategies. Aging Analytics Agency is recognised internationally as the premier analytics agency for advanced data analysis, industry reports and next-generation infographics on the topics of Aging and Longevity.

Now in its 7th year, Aging Analytics Agency has been on the frontlines of Longevity Analytics since the inception of the industry.
