

The AI in the UK: Finance Platform is an innovative initiative led by AI Industry Analytics, aimed at fostering collaboration, innovation, and knowledge exchange within the dynamic AI ecosystem of Finance. The primary objective of this project is to establish a centralized platform that connects the various facets of Finance's AI industry, including companies, experts, investors, and AI hubs. By creating a cohesive digital environment, the platform aims to accelerate the growth and impact of AI development in Finance.

## AI in UK Finance

Global AI Ecosystem is a first-of-its-kind open-source, decentralized and non-profit AI knowledge, analytics and community building platform. Launched by the UK-based social enterprise Global AI Industry Ecosystem Association with the support of AI Industry Analytics (AiiA) and Deep Knowledge Group, the platform seeks to establish itself as the go-to democratized and universally-accessible environment for community interaction, collaboration, discussion, content sharing and knowledge generation in the global AI community.
