

The **Longevity Industry in the USA** report by **Deep Knowledge Group** highlights the rapid growth of the sector driven by innovations in biotechnology, AI, and health optimization. As the aging population rises, the focus is shifting toward improving healthspan, not just lifespan, fueling the growth of AgeTech, HealthTech, and Longevity Finance products like REITs and ETFs. The U.S. government is integrating longevity into policy with Medicare expansions and supporting longevity research, though challenges like regulatory hurdles and equitable access remain. The industry's future will depend on innovation.
