

UAE HealthTech Ecosystem Big Data Analytics Dashboard and Market Intelligence System

The [UAE HealthTech Analytics Dashboard](#) offers detailed insights into the UAE HealthTech industry ecosystem, encompassing a comprehensive and technologically sophisticated set of tools for analytics, comparative assessment, market intelligence and operational environment monitoring across 1800+ companies and 156 hubs active in the UAE HealthTech industry.

Developed by Deep Knowledge Group's Life Sciences division and health-focused analytics subsidiaries, a group of entities technically unprecedented in their capabilities for domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Dashboards and Market Intelligence Systems, the UAE HealthTech Analytics Dashboard provides the most comprehensive and technologically sophisticated solution available to date for optimizing corporate decision making, business development and tactical strategy execution in the UAE HealthTech arena.

Key features include:

- **High-Level Metrics:** The dashboard displays key statistics, including the total number of companies (1,833), P4 Medicine companies (579), Medical Technology companies (321), and Hubs (156) in the UAE HealthTech space.
- **HealthTech Ecosystem in the UAE:** This panel provides a visual overview of the life sciences ecosystem, including key stakeholders, focus areas, and research initiatives.
- **UAE HealthTech Universe:** This circular visualization gives a high-level representation of the different health components and sectors that make up the life sciences landscape in the UAE.
- **UAE Macroparameters Analysis:** This panel showcases various macroeconomic and industry-specific data points and trends for the UAE, providing insights into the broader context.
- **HealthTech in the United Arab Emirates:** This panel provides a teaser for a more detailed report on the life sciences industry in the UAE, scheduled for release in September 2024.
- **Cluster Analysis:** This panel displays a visual mapping of various industry clusters and interconnections within the UAE HealthTech ecosystem.
- **Advanced Infographics:** The dashboard also includes access to additional advanced visualizations and analytical tools, such as Operational Environment (OE) Mapping and Analysis

Dashboard Tools and Products

The image displays a collection of 18 dashboard tool panels, organized into three rows and three columns:

- Row 1:**
 - Analytical and Assessment Tools:** Includes tools like Benchmarking Visualisation Tool, Benchmarking Analysis Tool, Benchmarks Comparison Tool, Ecosystem Benchmarks Tool, Statistical Benchmarks Tool, and Financial Benchmarks Tool.
 - Evaluation and Comparison Tools:** Includes Benchmarking Visualisation Tool, Benchmarking Analysis Tool, Benchmarks Comparison Tool, Ecosystem Benchmarks Tool, Statistical Benchmarks Tool, and Financial Benchmarks Tool.
 - Visualisation and Mapping Tools:** Includes Benchmarking Visualisation Tool, Benchmarking Analysis Tool, Benchmarks Comparison Tool, Ecosystem Benchmarks Tool, Statistical Benchmarks Tool, and Financial Benchmarks Tool.
- Row 2:**
 - Dashboard and Reporting Tools:** Shows various dashboard layouts with charts and data points.
 - Database and Management Tools:** Displays database management interfaces and data tables.
 - Research and Parsing Tools:** Features research summaries, data parsing tools, and network visualizations.
- Row 3:**
 - Enchanted Analytical Material:** A collection of diverse analytical charts and graphs.
 - Industry Benchmarks:** A detailed data table with columns for various metrics and industry categories.
 - Corporate Blueprint:** A complex hexagonal network diagram representing organizational structure.
 - Tailored Market Research:** A dashboard with multiple charts, including a map of the UK, showing market insights.
 - Custom Benchmarks:** A pyramid diagram illustrating AI in Drug Discovery Companies Focus on Oncology, categorized by funding levels (>500, >200, >100).
 - Personal Blueprint:** A flowchart and diagram detailing a personal or organizational strategy.

Deep Knowledge Group's life sciences-focused analytics subsidiaries, which specialize in the development of the group's external and proprietary Big Data Analytics systems and Market Intelligence Dashboards, are in possession of best-in-their-class market intelligence, competitive benchmarking, technology forecasting, deep ecosystem analytics and operational environment monitoring IP, assets and systems across their 70+ domain-specific Life Sciences Dashboards. Which are built on top of extremely comprehensive and proprietary databases developed through years of domain-specific ecosystem mapping and analysis according to specialized industry classification frameworks; in this regard, each subsidiary is the leader in its domain in terms of the tangibility and relevance of its data, the technological sophistication of its market intelligence systems, and its capacity for tangible industry and technology analytics, forecasting and benchmarking.
