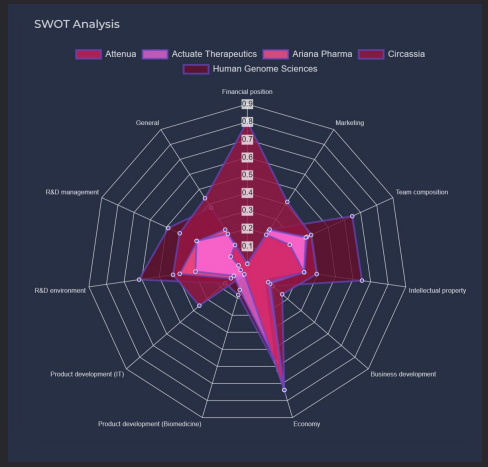
What are Dashboards?

We provide deep data science insights on the private and public markets via customized IT platforms we call Dashboards. In essence, Dashboards is a Big Data Analytical System that consists of separate Components or Dashboards:



Specialized data for critical decisions

Dashboards by Deep Knowledge Group uncover actionable insights and trends for all companies and investors of DeepTech, HealthTech and Longevity Industries. Our visually pleasing platform provides unparalleled access to the public and private markets, and we are committed to providing unbiased data - information you can use to drive success at your firm.

Discover what you can do with our Dashboards

FOR INVESTORS

- Private Market Intelligence
- Portfolio Constructor
- Deal Sourcing
- Forecasting / Predictions

FOR COMPANIES

- SWOT Analysis
- Fundraising
- Matching Tool
- Company Analysis

FOR ANALYSTS

- Clinical Trials
- Market Research
- Due Diligence
- Statistics Charts

FOR BUSINESS DEVELOPMENT MANAGERS

- Limited Partners
- Networking
- Business Development
- Mind Maps

Engagement Relations Management System

Engagement Relationship Management System 3.0, included as part of our White Label Solution, is designed to streamline and enhance your organization's engagement with clients, distributors, investors and business development processes. It offers a comprehensive set of tools and platforms to manage projects, analyze data, create customized platforms, and facilitate deal management.

ERMS 3.0 Ecosystem

- Professional Projects Platform for Engagement Relations Management
- Operational Environment and Smart-Matching System
- LegalTech Constructor
- Commercial Deals Constructor
- SWOT
- Structured BisDevTech Platforms

Market Intelligence Dashboard Products, Tools and Value Offering

Deep Knowledge Group's 10+ thematic analytical subsidiaries are technically unprecedented in their capabilities for domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Systems. It is on this strong basis that each of our thematic Big Data Analytics Dashboards are built.

While each thematic analytical dashboard and market intelligence system comes with its own unique composition of products and tools, very often they will feature tools focused on analytics and assessment, entity (company, investor) profiling, evaluation and comparison, smart-matching (ecosystem entities that fit client's profile and needs), and operational environment visualization and mapping, and products focused on benchmarking (identifying and ranking top players), blueprints (ideal product or service offering compositions based on analysis of top players), company-targeted recommendations and custom market reporting.

Market Intelligence Dashboard Tools

- Analytical and assessment tools
- Evaluation and comparison tools
- Entity-specific SWOT, benchmarking (ranking) and forecasting tools
- Smart-matching tools
- Visualization and mapping tools
- Custom reporting tools
- Database management tools
- Research and parsing tools

Market Intelligence Dashboard Products

- Benchmarks and indices: quantitative qualitative, comparative and competitive ranking of top thematic entities (e.g., companies, investors, technologies)
- Blueprints: ideal composition (component pipeline) of dashboard's thematic focus, built from analysis of top players (e.g., ideal clinic blueprint, ideal product/service blueprint, etc.)
- Custom benchmarks and reports

Market Intelligence Dashboard Use Cases and Value Offerings

- Industry ecosystem and operational environment monitoring and mapping
- Identification and analysis of competitors, potential partners, investment targets, etc.
- Improving corporate strategy on basis of top players analysis
- Recognizing and adapting to decisive market and ecosystem trends early

Forms of Proposed Cooperation

Deep Knowledge Group offers a variety of collaboration and cooperation options for parties seeking to enhance their strategic decision making, corporate and operational intelligence, and tactical execution capabilities by accessing one or more of our 70+ health and life sciences-focused Big Data Analytical Dashboards and Market Intelligence Systems.

We offer access to our Dashboards across 3 tiers: Subscription (baseline access to tools and components), White Label Solution (access to full scope of features with certain degrees of customization, personalization and plug-and-play feature selection), and Custom Dashboard Creation (end-to-end customized solution tailored to your specific operational needs and requirements).

Big Data Analytics Dashboard Subscription

- Subscription access is the most economical option for parties seeking to utilize our dashboards
- Offers full scope of ready-for-use analytics, corporate and competitive intelligence, market monitoring and benchmarking tools
- Discounted rates for multi-dashboard access available.

Big Data Analytics Dashboard White Label Solution

- Enhanced access to a wider scope of Dashboard features and functionality
- Includes a certain degree of client-directed Dashboard component and functionality customization and personalization and plug-and-play feature selection
- Highly flexible choice of data sources

Custom Market Intelligence Dashboard Creation

- End-to-end custom solution tailored to the operational and organizational needs and specifics of the client
- Plug-and-play feature selection
- Ground-up custom design of new components according to client need
- Most versatile, customizable and sophisticated option available

We are open to a mutually beneficial cooperation
