

Ecosystem Mapping-as-a-Service

End-to-End Solution for Regional, Corporate and Tech Industry Ecosystem Mapping

Ecosystem Mapping as a Service offers the world's most advanced tech-stack for creating interactive domain-specific, regional and industrial ecosystem mapping platforms to showcase the unique strengths of tech, innovation and industry ecosystems in an unprecedentedly advanced, technologically robust and visually sophisticated manner.

Ecosystem Mapping IT-Platform
This platform provides a dynamic view of the relevant industrial ecosystem. It makes it possible to continuously monitor the local and regional market.

Big Data Analytics System and Dashboard
We also offer contracted Big Data Analytical System and Dashboard construction services, tailored to client needs, featuring sophisticated SWOT analytics.

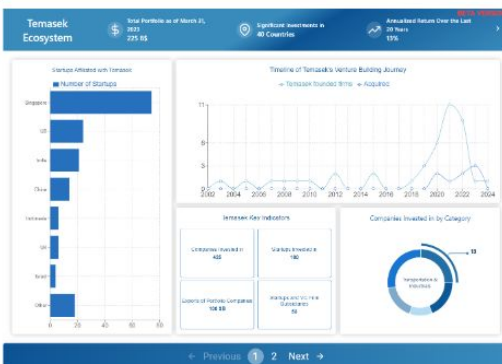

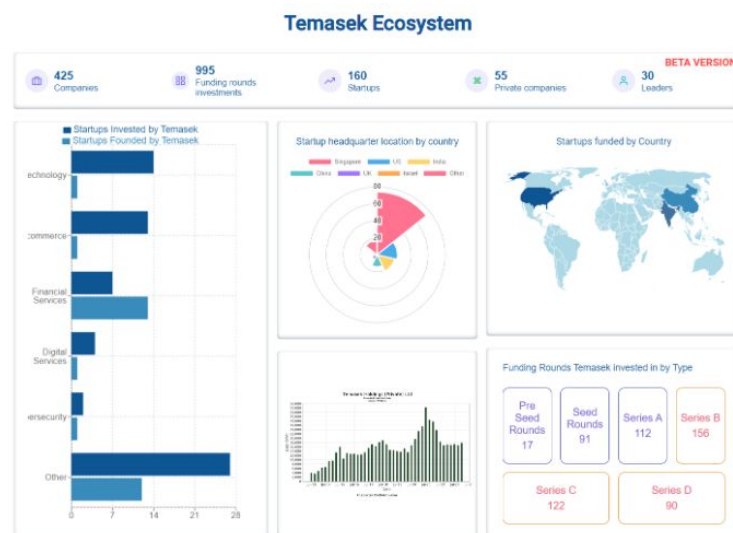

Ecosystem-Trained Custom AI Engine
For clients seeking even more sophisticated ecosystem mapping solutions, we offer custom-order pre-trained deep learning models.
