Deep Knowledge Group Life Sciences Dashboards and Market Intelligence Systems

Deep Knowledge Group's 10+ thematic analytical subsidiaries across Longevity, BioTech, Pharma, FemTech, AI, GovTech and DeepTech are the knowledge engines driving the consortium's long-term strategic agenda, technically unprecedented in their capabilities for domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Dashboards and Market Intelligence Systems.

The consortium's life sciences-focused analytics subsidiaries include Longevity Industry Analytics, FemTech Analytics, Deep Pharma Intelligence and NeuroTech Analytics, and its Life Sciences Division also encompasses a number of stealth working groups focused on next-generation health technology validation, analysis, development and deployment across Practical Longevity, Space Medicine, Mitochondrial Medicine and other intersectional domains.

These entities are in possession of best-in-their-class market intelligence, competitive benchmarking, technology forecasting, deep ecosystem analytics and operational environment monitoring IP, assets and systems across their 70+ domain-specific Life Sciences Dashboards and Market Intelligence Systems. Their Dashboards are built on top of extremely comprehensive and proprietary databases developed through years of domain-specific ecosystem mapping and analysis according to specialized industry classification frameworks; in this regard, each subsidiary is the leader in its domain in terms of the tangibility and relevance of its data, the scope, function and technological sophistication of its market intelligence systems, and the depth and actionability of its capacity for tangible industry and technology analytics, forecasting and benchmarking.

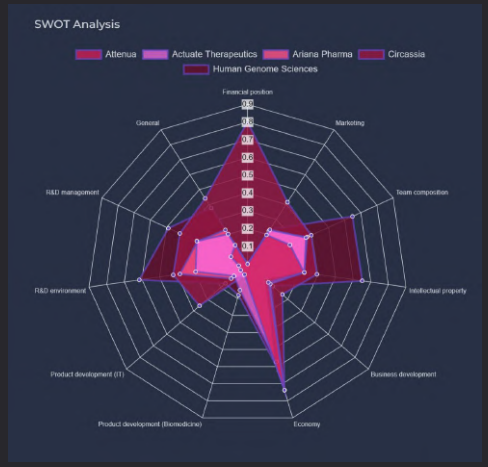
What are Dashboards?

We provide deep data science insights on the private and public markets via customized IT platforms we call Dashboards. In essence, Dashboards is a Big Data Analytical System that consists of separate Components or Dashboards:



Specialized data for critical decisions

Dashboards by Deep Knowledge Group uncover actionable insights and trends for all companies and investors of DeepTech, HealthTech and Longevity Industries. Our visually pleasing platform provides unparalleled access to the public and private markets, and we are committed to providing unbiased data - information you can use to drive success at your firm.

Discover what you can do with our Dashboards

FOR INVESTORS

- Private Market Intelligence
- Portfolio Constructor
- Deal Sourcing
- Forecasting / Predictions

FOR COMPANIES

- SWOT Analysis
- Fundraising
- Matching Tool
- Company Analysis

FOR ANALYSTS

FOR INVESTORS

Advanced Companies Search for Investors

Explore companies with unseen precision. Many investors can confirm that looking for a suitable investment target starts with the creation of the database. The one that suits his/her needs and allows him/her to ask the right questions.

FOR INVESTORS

SWOTs & Matching Tool for Investors

Easily analyze companies market position and compare it across the industry. Any investment decision is conducted based on a specific analysis called due diligence. The process of due diligence encompasses the use of different approaches that allow analysis and comparison of companies. Thus, the assessment of one company ends up in a multi-layer comparison of tens or even hundreds of companies.

FOR COMPANIES

Limited Partners

Explore Limited Partners From Multiple Thematic Groups. Limited Partners are the driving force of any market. Many investment entities looking for those, aiming to allocate their money to their fund or firm. Yet this process takes a lot of time and effort.

Look at our Limited Partners tutorial.

FOR BUSINESS DEVELOPMENT MANAGERS

Mindmaps

Easily analyze the market connections across different sectors and subsectors of the Longevity, Healthcare and Biotech industries. Understand how different actors relate to each other in an interactive way. No matter what is the reasoning behind your market analysis, Mindmaps can serve as a powerful tool to track and understand your niche better!

Look at our Mindmaps tutorial.

FOR ANALYSTS

Statistics charts

Access a powerful and easy-to-use analytical tool that will allow you to derive your own market insights today. Forget about lifeless statistics, data cleaning, and visualization problems. Use the database of more than 70,000 companies across different Longevity, Biotech, and Pharma sectors to envision the market in the way you want and need.

Look at our Statistics charts.

FOR INVESTORS

R&D Collaborations and Clinical Trials for Investors

Analyze the intellectual property of the companies to drive your market understanding. While looking for an investment target, financial performance can be deceiving. In the case of pharmaceutical or biotech companies, the financial position can lead to an incorrect image of the company.

Look at our Clinical Trials tutorial.

FOR COMPANIES AND INVESTORS

Forecasting & Reports for Investors and Companies

Access top-level forecasting solutions and reports to drive your market understanding. It's hard to imagine a proper investment pipeline without good forecasting and market analysis. Unfortunately, both of these things are really time-consuming and might take a lot of resources.

Look at our Forecasing / Predictions tutorial.

Market Intelligence Dashboard Products, Tools and Value Offering

Deep Knowledge Group's 10+ thematic analytical subsidiaries are technically unprecedented in their capabilities for domain-specific analytics, market intelligence and monitoring, benchmarking and forecasting, their understanding of complex industry dynamics and their ownership of best-in-class databases, technical and methodological IP and Big Data Analytics Systems. It is on this strong basis that each of our thematic Big Data Analytics Dashboards are built.

While each thematic analytical dashboard and market intelligence system comes with its own unique composition of products and tools, very often they will feature tools focused on analytics and assessment, entity (company, investor) profiling, evaluation and comparison, smart-matching (ecosystem entities that fit client's profile and needs), and operational environment visualization and mapping, and products focused on benchmarking (identifying and ranking top players), blueprints (ideal product or service offering compositions based on analysis of top players), company-targeted recommendations and custom market reporting.

Market Intelligence Dashboard Tools

- Analytical and assessment tools
- Evaluation and comparison tools
- Entity-specific SWOT, benchmarking (ranking) and forecasting tools
- Smart-matching tools
- Visualization and mapping tools
- Custom reporting tools
- Database management tools
- Research and parsing tools

Market Intelligence Dashboard Products

- Benchmarks and indices: quantitative qualitative, comparative and competitive ranking of top thematic entities (e.g., companies, investors, technologies)
- Blueprints: ideal composition (component pipeline) of dashboard's thematic focus, built from analysis of top players (e.g., ideal clinic blueprint, ideal product/service blueprint, etc.)
- Custom benchmarks and reports

Market Intelligence Dashboard Use Cases and Value Offerings

- Industry ecosystem and operational environment monitoring and mapping
- Identification and analysis of competitors, potential partners, investment targets, etc.
- Improving corporate strategy on basis of top players analysis
- Recognizing and adapting to decisive market and ecosystem trends early

Forms of Proposed Cooperation

Deep Knowledge Group offers a variety of collaboration and cooperation options for parties seeking to enhance their strategic decision making, corporate and operational intelligence, and tactical execution capabilities by accessing one or more of our 70+ health and life sciences-focused Big Data Analytical Dashboards and Market Intelligence Systems.

We offer access to our Dashboards across 3 tiers: Subscription (baseline access to tools and components), White Label Solution (access to full scope of features with certain degrees of customization, personalization and plug-and-play feature selection), and Custom Dashboard Creation (end-to-end customized solution tailored to your specific operational needs and requirements).

Big Data Analytics Dashboard Subscription

- Subscription access is the most economical option for parties seeking to utilize our dashboards
- Offers full scope of ready-for-use analytics, corporate and competitive intelligence, market monitoring and benchmarking tools
- Discounted rates for multi-dashboard access available.

Big Data Analytics Dashboard White Label Solution

- Enhanced access to a wider scope of Dashboard features and functionality
- Includes a certain degree of client-directed Dashboard component and functionality customization and personalization and plug-and-play feature selection
- Highly flexible choice of data sources

Custom Market Intelligence Dashboard Creation

- End-to-end custom solution tailored to the operational and organizational needs and specifics of the client
- Plug-and-play feature selection
- Ground-up custom design of new components according to client need
- Most versatile, customizable and sophisticated option available

We are open to a mutually beneficial cooperation
