# Innovation Eye Timeline

Innovation Eye Limited is a company jointly founded in March 2019 by Big Innovation Centre Limited and Deep Knowledge Analytics Ltd. to provide sophisticated market analytics, industry intelligence, comparative industry classification frameworks and benchmark case studies, developing advanced tools for analysis and visualization of technology and innovation ecosystems through reports, custom-made consultancy products and services, and dynamic interactive online IT-platforms.

In 2021, Innovation Eye together with Deep Knowledge Analytics will present two projects regarding Blockchain and AI industries that are the second iterations of case studies first published in 2018. The reports will be introduced on APPGs.
