

Tech and Innovation Ecosystem of Moldova Project aims to create a set of ecosystem platforms that profile key industries and sectors in Moldova, showcasing the country's advantages globally. This initiative reflects Deep Knowledge Group's commitment to a Techno-Philanthropic approach and dedication to contributing to their homeland. The project also focuses on establishing cross-learning and collaboration between the Moldova Platform and Invest-Ukraine.Tech, integrating it with Philanthropy.International and DeepTech in Europe.

## Philanthropy, Impact Investment and Techno-Philanthropy Ecosystem of Moldova

February 2024
