GeoDashboard Constructor & Interactive GeoMaps

The Geo Dashboards Constructor stands as a robust and user-friendly solution for creating dynamic, interactive dashboards. It caters to the growing need for sophisticated data visualization tools in a data-driven world.

This tool is ideal for data analysts, marketing professionals, and decision-makers in various sectors who require comprehensive and customizable data visualization solutions.

Advanced Graphics Integration: The tool supports a wide range of graphical elements, such as timelines, line charts, and bar graphs, enhancing the data representation capabilities.

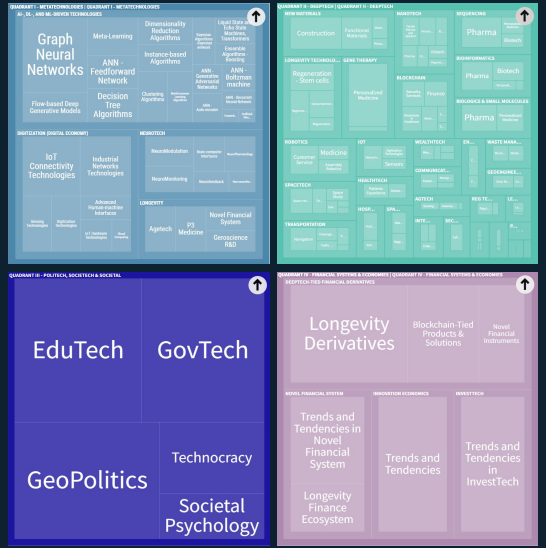
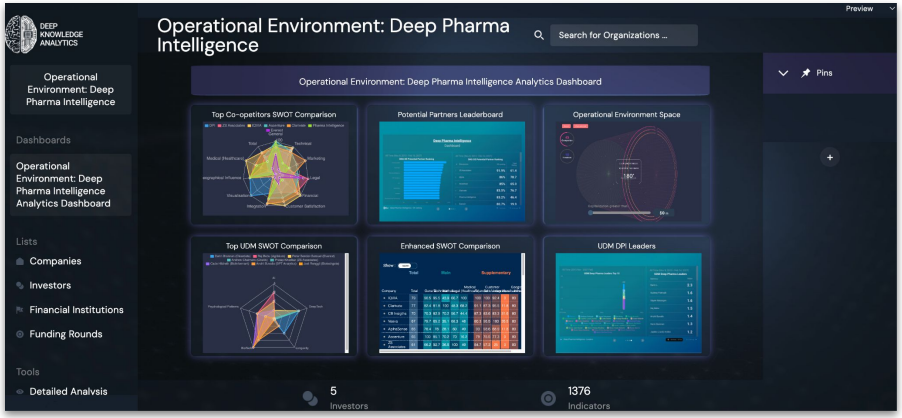
Frameworks Constructor



Frameworks Constructor should allow the analytics to input text content of a framework considering decomposition level to build a clickable and interactive framework similar to what we have at 5th Revolution website. www.5revolution.tech/overall-structure

Constructor should also allow to be adapted for 3D-cube format.

Dashboards Constructor



Key Features

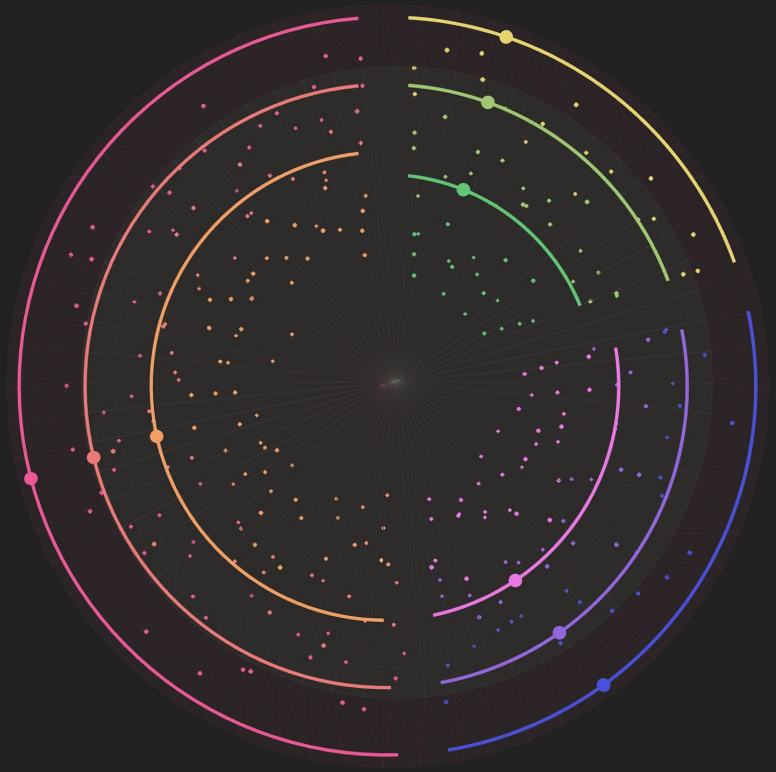
E Enables the creation of tailored and personalized analytical dashboards in a matter of minutes

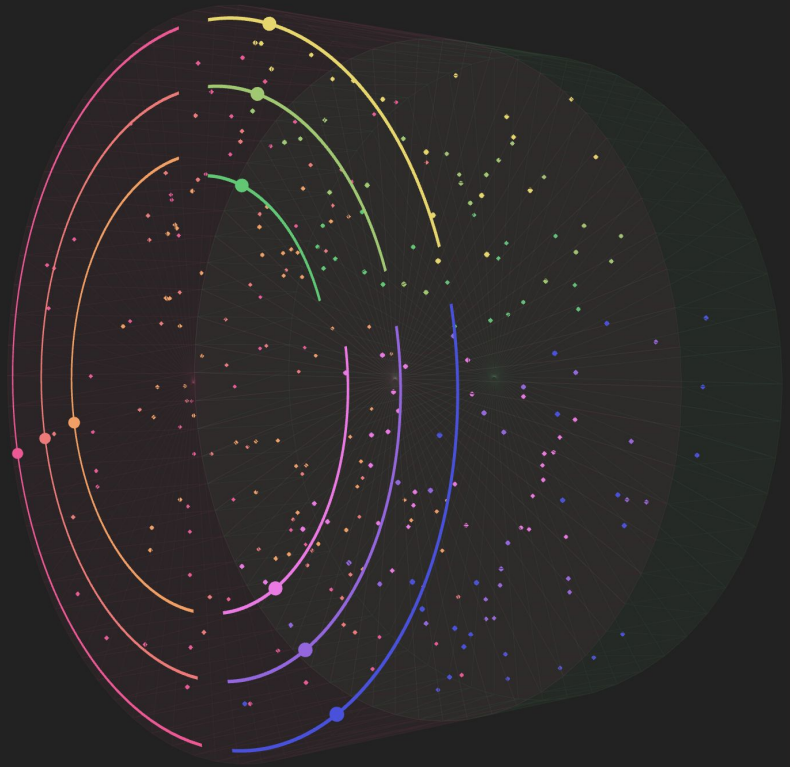
A All features that are available on other dashboards are already enabled

S Save time and money on analyst training with a low-code solution

Y You are the one who decides - purchase a white label solution or request creation-on-demand

Seamless
3D Visualization Experience



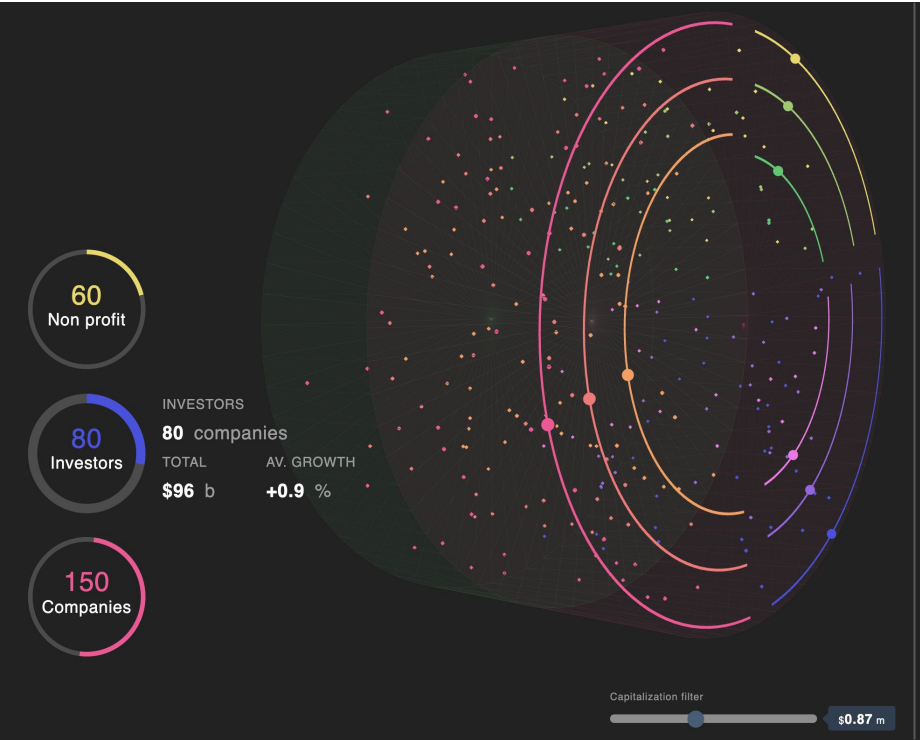


Our Next-Generation visualization IT-Platform provides seamless user experience, gained by intuitive user interface and simplicity of use. Despite its simplicity, the platform is backed by the most advanced and complex technologies, developed by Deep Knowledge Analytics and Aging Analytics team.

Filter by Sector And Capitalization

Our IT Solution provides unique ability to filter organizations by Market Capitalization, industry subsectors, average growth of the company and other tangible parameters. The capacity of profiled organizations includes up to 30000 organizations.

The Platform is applicable for the whole range of industries and can be integrated into company of any size, starting from SMEs, ending with Big Corporations and Governments.



Customizable Interface

The Platform has fully customizable interface, which allows switching between Light and Dark Modes, choosing and turning on/off subsectors, selecting colours for charts and many other features.
