## The value our reports can deliver:

1

Deep analysis of the deal-making prospects in the SpaceTech space, identification of top mini-trends and larger tendencies in innovations and technology adoption (e.g. SpaceTech breakthroughs, commercial micro/nano-satellites, air and spacecraft, space missions, national space programs and etc.);

2

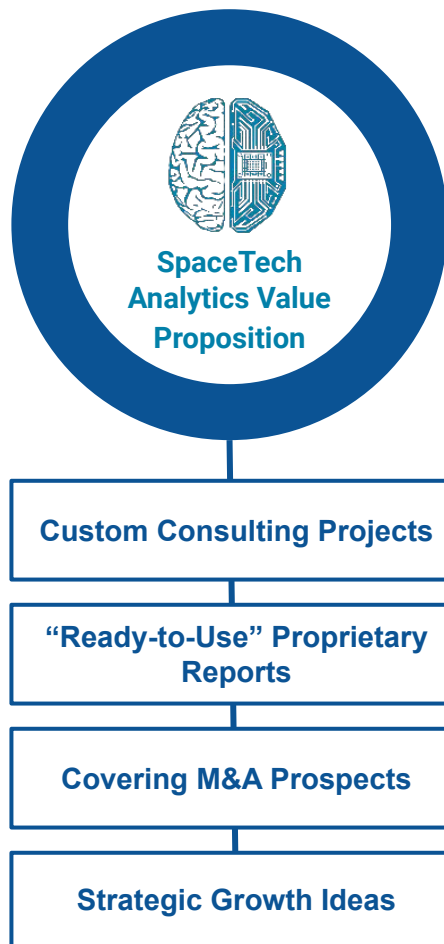

Tangible forecasts on the 3-5 years horizon, providing an overview of future scenarios of the development of various technologies in the SpaceTech industry;

3

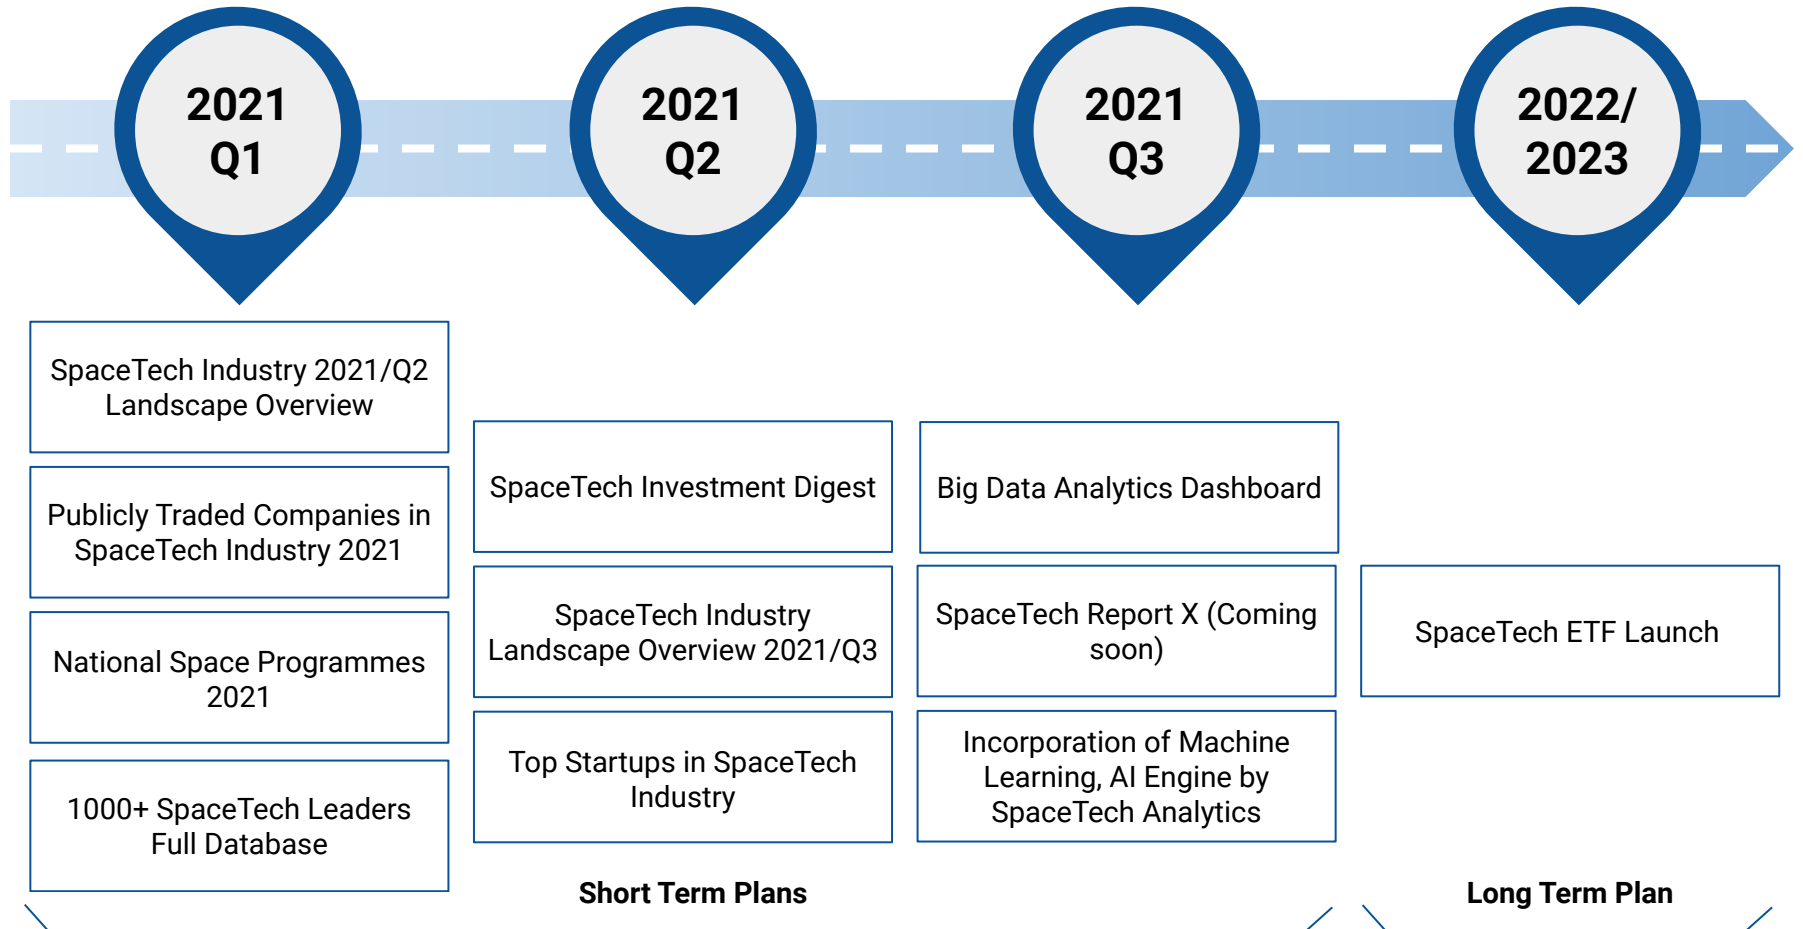

Practical guides for adopting various technological solutions and best practices, vendor profiling, and contract research strategy building;

4

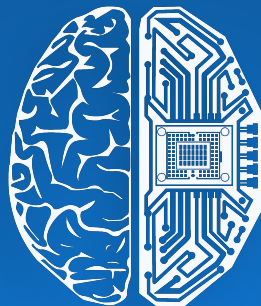

Analysis of key market players in the emerging and high-growth areas of SpaceTech industry.
