Medical Clinics Industry Outlook

Drivers of Growth

Population ageing

Medical services are in high demand as the world's population ages.

New machines and drugs

New remedies are being developed to meet previously unmet health requirements, stimulating additional technological advancements and pharmacological development.

Patient centricity

A shift to customised health care is underway, and platforms that deliver it to patients (literally) at their doorstep are in high demand.

Pharmaceuticals

\$ 871 → 1200

Medical devices

\$ 475 → 595

CROs*

\$ 37 → 55

Biotechnology

\$ 453 → 656

*Note: CRO is a company that provides support to the pharmaceutical, biotechnology, and medical device industries in the form of research services outsourced on a contract basis.

The Federal Council's Health Policy Strategy 2020–2030

The Federal Council's health policy strategy for 2020–2030, known as Health 2030, addresses Switzerland's healthcare challenges, including rising costs, aging populations, and technological advancements. It focuses on four pillars: embracing digital transformation, adapting to demographic and societal changes, fostering opportunities for healthier lifestyles, and maintaining high-quality, affordable care. The strategy emphasizes sustainable healthcare and equal access for all residents. It aims to leverage innovation and collaboration while addressing ethical and legal considerations surrounding new technologies. Overall, Health 2030 strives to build a modern, inclusive, and efficient healthcare system for the future.

Six challenges will be targeted:

- technological and digital transformation
- demographic and social changes
- maintenance of high-quality, affordable care
- opportunities for a healthy life (environment/workplace)

Strategic Objectives

Utilize Health Data and Technologies

Promote digitalization and define the use of new technologies.

Promote Health Literacy

Enhance awareness and improve access to health information.

Safeguard Care and Funding

Ensure adequate long-term care and optimize its funding.

Ensure Healthy Aging

Focus on preventing diseases and supporting child health.

Improve Quality of Care

Strengthen coordinated care and enhance medical treatments.

Forms of Proposed Cooperation

Deep Knowledge Group offers a variety of collaboration and cooperation options for parties seeking to enhance their strategic decision making, corporate and operational intelligence, and tactical execution capabilities by accessing one or more of our 70+ health and life sciences-focused Big Data Analytical Dashboards and Market Intelligence Systems.

We offer access to our Dashboards across 3 tiers: Subscription (baseline access to tools and components), White Label Solution (access to full scope of features with certain degrees of customization, personalization and plug-and-play feature selection), and Custom Dashboard Creation (end-to-end customized solution tailored to your specific operational needs and requirements).

Big Data Analytics Dashboard Subscription

- Subscription access is the most economical option for parties seeking to utilize our dashboards
- Offers full scope of ready-for-use analytics, corporate and competitive intelligence, market monitoring and benchmarking tools
- Discounted rates for multi-dashboard access available.

Big Data Analytics Dashboard White Label Solution

- Enhanced access to a wider scope of Dashboard features and functionality
- Includes a certain degree of client-directed Dashboard component and functionality customization and personalization and plug-and-play feature selection
- Highly flexible choice of data sources

Custom Market Intelligence Dashboard Creation

- End-to-end custom solution tailored to the operational and organizational needs and specifics of the client
- Plug-and-play feature selection
- Ground-up custom design of new components according to client need
- Most versatile, customizable and sophisticated option available

We are open to a mutually beneficial cooperation
